# **EPA's BEACH Report:**Ohio 2010 Swimming Season

**May 2011** 

#### Introduction

The BEACH Act of 2000 requires that coastal and Great Lakes states and territories report to EPA on beach monitoring and notification data for their coastal recreation waters. The BEACH Act defines coastal recreation waters as the Great Lakes and coastal waters (including coastal estuaries) that states, territories, and authorized tribes officially recognize or designate for swimming, bathing, surfing, or similar activities in the water.

This fact sheet summarizes beach monitoring and notification data submitted to EPA by the State of Ohio for the 2010 swimming season.

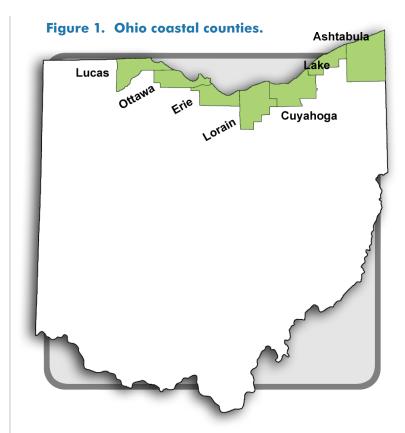

Table 1. Breakdown of monitored and unmonitored coastal beaches by county for 2010.

County	Total Beaches	Monitored	Not Monitored
ASHTABULA	4	4	0
CUYAHOGA	19	19	0
ERIE	25	25	0
LAKE	3	3	0
LORAIN	2	2	0
LUCAS	2	2	0
OTTAWA	7	7	0
TOTALS	62	62	0

### **2010 Summary Results**

# How many notification actions were reported and how long were they?

When water quality standards are exceeded at a particular beach, Ohio issues a beach advisory that warns people to avoid contact with the water. A total of 60 monitored beaches had at least one advisory issued during the 2010 swimming season. Figure 2 presents a full breakdown of notification action durations.

## What percentage of days were beaches under a notification action?

For Ohio's 2010 swimming season, actions were reported about 18 percent of the time (Figure 3).

#### How do 2010 results compare to previous years?

Table 2 compares 2010 notification action data with monitored beach data from previous years.

## What pollution sources possibly affect investigated monitored beaches?

Possible pollution sources were not investigated at Ohio beaches in 2010.

#### **For More Information**

For general information about beaches: <a href="https://www.epa.gov/beaches/">www.epa.gov/beaches/</a>

Figure 2: Beach notification actions by duration.

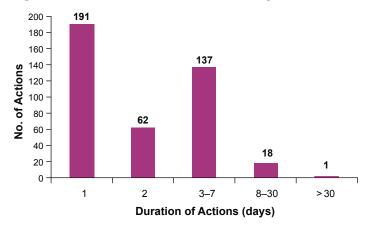

Figure 3: Beach days with and without notification actions.

Beach days with no action: 6,122 (82.3%)

Beach days with an action: 1,318 (17.7%)

Table 2. Beach notification actions, 2008–2010.

	2008	2009	2010
Number of monitored beaches	46	62	62
Number of beaches affected by notification actions	41	55	60
Percentage of beaches affected by notification actions	89%	89%	97%
Percentage of beach days affected by notification actions	17%	17%	18%
