RE: Revision to Iowa Government UST Compliance Report

Dear Administrator,

The compliance report sent to you August 7, 2007 indicated only one government tank owner out of compliance. They were out of compliance for financial responsibility. We reviewed with them their local government financial test procedure and found an error in their calculations. They had made a mistake in transferring the method to their spreadsheet creating a decimal placement error. Correcting the error made them in compliance with the financial responsibility requirement.

Please make a correction in our report to indicate no government underground storage tank systems are out of compliance in the State of Iowa. Based on our last inspection of all government facilities, all compliance problems found during the inspections have been corrected.

If you have any questions concerning this report, please contact Paul Nelson at 515-281-8779.

Sincerely,

Elaine Douskey
Supervisor
Underground Storage Tank Section
