Subject Re: 404 Permit for PCS Phosphate☐

Les, thanks for the heads up on this, and for your continued work with us all on this project. It's my understanding that Jim Giattina, our Water Division Director, will also be attending.

Stan

Subject: 404 Permit for PCS Phosphate

Cindy, Stan, and Roy

This is a courtesy heads up note on an ongoing high visibility permit action.

Our respective staffs are meeting in NC on Tuesday to review a PCS Phosphate Permit. Stan, it is my understanding, EPA plans to elevate the proposed permit decision. Cindy, we received a fax from the USFWS stating plans to also elevate the permit action. We will continue to work at the field level with USFWS, NMFS and EPA to come to a resolution on the outstanding issues.

The meeting will be held at the Fish and Wildlife Service office in Raleigh, NC. We are holding meeting in Raleigh to accommodate those flying in from Atlanta, Charleston, and DC. Here's the list of attendees:

USACE: Ken Jolly & Tom Walker (Wilmington District); Arch Middleton (SAD)
EPA Region IV: Tom Welborn (Atlanta); Becky Fox (Local); Palmer Hough and Brian Frazer (Washington, DC)

FWS: Pete Benjamin (Field Supervisor, Local); Mike Wicker (Local)
NMFS: Pace Wilber (Field Supervisor, Charleston, SC); Ron Sechler (Local)

If you have any questions or suggestions, please do not hesitate to give me a call.

Best regards,

Les Dixon
Director of Programs
South Atlantic Division
US Army Corps of Engineers
