

Manufacturer: MeadWestvaco (MWV): Slatersville, LLC
Model: PS194 (ToggLoc)
ASTM Type: IIID (1)

Description:

This is a one piece plastic snap closure with a dispensing spout (Figure 1A). The PS 194 is a white closure with a white spout as shown in Figure 1B.

Figure 1A

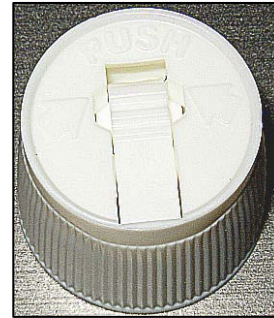

Figure 1B

This closure can be fitted to either bottles (Figure 2A) or tubes (Figure 2B).

Figure 2A

Figure 2B
(Black arrows and lettering are for illustration purposes only.)

The snap closure is permanently attached to the container by continuous threads and matching ratchets on the closure and container (see arrow to ratchets on the closure and the bottle in Figure 3).

Figure 3

The closure is opened by pushing down on a groove between horizontal lines at the back of the spout (see Figure 4) and then lifting the spout up. The closure is closed by pushing the spout down. The PS194 has horizontal lines on the spout only (Figure 5).

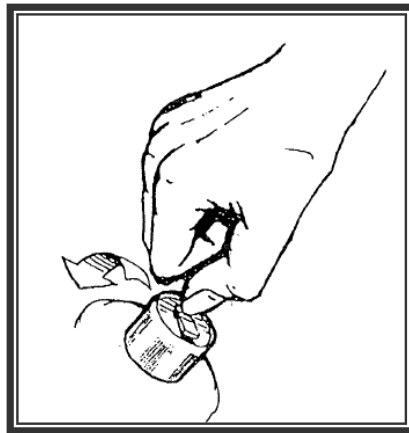

Figure 4

The manufacturer's instructions on the closure are (Figure 5, the instructions are highlighted in black):

"PUSH"

(two arrows at 45° are pointing at each side of the grooved spout).
