I-BEAM: MANAGER'S IAQ OVERSIGHT AND INSPECTIONS Program Development and Implementation

Page 1 of 4

C1: IAQ Program: Manager's Oversight

Use this checklist to assign responsibilities for developing and enforcing procedures and for monitoring status and progress of your IAQ program.

lt	Daamanaikia manaan	Ctatus/Natas		
ltem	Responsible person	Status/Notes		
	(name, telephone)			
ASSIGN RESPONSIBILITIES AND TRAIN PER	SONNEL			
IAQ Manager has been assigned				
Supervisors and staff have been trained				
Continuing education/raining program has been established				
ESTABLISH AN IAQ BASELINE				
Update building records important to an	IAQ Management Plan	ì		
"As built" blueprints are on file.				
Record of major space use changes not				
reflected in original design are on file.				
Summary record of major building				
modifications and IAQ implications is on file.				
Drawings of tenant buildouts and interior				
renovations are on file.				
HVAC design data, operating instructions, and manuals are on file.				
Written operating and maintenance plans and				
schedules are on file.				
HVAC maintenance and calibration records,				
testing and balancing reports are on file.				
Conduct Baseline IAQ Building Audit (Walkthrough)				
Building interior spaces have been audited.				
Mechanical systems have been audited.				
Building exterior has been audited.				
Budget for repairs based on baseline audit has been prepared.				

Item	Responsible person	Status/Notes
	(name, telephone)	
ESTABLISH AN IAQ BASELINE (continued)		
Create Additional Baseline Records		
Plan showing airflow directions or pressure		
differentials in significant areas has been		
created.		
Inventory of significant pollutant sources and		
locations has been created.		
MSDSs for supplies and hazardous		
substances that are stored or used in building		
are on file.		
Record of outdoor air quantities required at		
each OA intake to meet applicable standard		
(e.g. ASHRAE 62-1989) are on file.		
Record of outdoor air quantities measured at		
OA intakes are on file.		
Inventory of equipment control settings and		
operating schedules		
Document describing areas where positive or		
negative pressure should be maintained has		
been created.		
Historical occupant complaint records,		
complaint areas, and complaint resolution are		
on file.		

Item	Responsible person	Status/Notes		
	(name, telephone)			
ESTABLISH PROTOCOLS (POLICIES) TO MA	ANAGE SIGNIFICANT POI	LLULTION SOURCES		
Remodeling and renovation protocol has been				
established.				
Painting protocol has been established.				
Pest control protocol has been established.				
Shipping and receiving protocol has been established.				
Smoking policy has been established.				
ESTABLISH IAQ HOUSEKEEPING AND MAINTENANCE PLANS AND SCHEDULES				
IAQ features have been incorporated into				
written housekeeping plans/protocols and				
housekeeping schedules .				
IAQ features have been incorporated into				
written maintenance plans/protocols and				
maintenance schedules.				
ESTABLISH COMMUNICATION PROTOCOLS	<u> </u>			
Establish Complaint-Response Procedu	res			
Written complaint procedures occupants				
should follow have been established.				
Written procedures for diagnosing and				
responding to complaints have been				
established.				
Establish Communication Policies				
Written notification procedure for major				
activities affecting occupants has been				
established.				
Occupants have been informed in writing of				
complaint-response process .				
Procedures for informing occupants of				
progress in diagnosing major problems and				
complaints have been established.				

Item	Responsible person (name, telephone)	Status/Notes
COMPLICTING PERIODIC OVERSIGHT INSPE		
CONDUCTING PERIODIC OVERSIGHT INSPE	CHONS	
Oversight Walkthrough Inspections		
Inspections of indoor spaces completed		
Inspections of HVAC system completed		
HVAC setpoints and operating schedules have been monitored.		
Source Control Protocol Monitoring		
Remodeling and renovation protocol		
implementation has been monitored.		
Painting protocol implementation has been monitored.		
Pest control protocol implementation has been monitored.		
Shipping and receiving protocol implementation has been monitored.		
Smoking policy implementation has been monitored		
Communications Protocol Monitoring		
Handling of occupant complaints has been monitored.		
Notifications and communications to		
occupants have been monitored.
