Kansas Surface Water Register

Effective November 3, 2003

The following document is no longer in effect for Clean Water Act purposes except for the provisions discussed below:

EPA deferred action(s):

- Removal of six streams from the *Kansas Surface Water Register*, as EPA found the state's initial UAAs for these six streams to be inconclusive to support a change in designated use. The designated uses for the waterbodies listed below are still in effect for Clean Water Act purposes and can be found in this document.

#	Basin	Stream Name	HUC 8	Segment	County
1	SO	Game Creek*	10260011	27	Norton
2	SO	Medicine Creek*	10260012	33	Smith, Phillips, Rooks

5	SO	Robbers Roost Creek*	10260014	24	Rooks
6	UA	Great Eastern Ditch***	11030001	2	Kearny, Finney

All other provisions of this document are no longer in effect for Clean Water Act purposes. Refer to the Kansas Surface Water Register, Effective June 23, 2008, on the [Kansas WQS Repository Page](#) for all remaining provisions in effect for Clean Water Act purposes.

Please note that, until the federal use designations for Kansas are withdrawn, the federal uses for those waters, as codified at 40 CFR § 131.34, will remain applicable water quality standards for CWA purposes (See, 68 Federal Register, 40428).
