

Special Program

SMITHSONIAN'S NATIONAL MUSEUM OF THE AMERICAN INDIAN
AND THE **U.S. ENVIRONMENTAL PROTECTION AGENCY** co-present

NATIONAL
MUSEUM
OF THE
AMERICAN
INDIAN

Tribal Air Quality Forum

The Clean Air Act Advisory Committee, U.S. Environmental Protection Agency, and the National Tribal Air Association will have a discussion with various tribal communities about their current air quality issues and its environmental and public health impacts upon tribal communities. The program will also explore the successes and challenges of their existing air quality programs.

Wednesday, May 9, 2007
3:00 - 5:00 p.m.

Elmer and Mary Louise Rasmuson
Theater, First Level

Free & Open to the Public

Co-Presented by the Seminars & Symposia
Office of the Department of Museum
Programs.

4th Street & Independence Avenue, S.W.
Washington, DC 20024

For evening programs, please enter the
museum at the south entrance on Maryland
Avenue near 4th Street and Independence
Avenue, S.W.

The Clean Air Act Advisory Committee (CAAAC) is a senior-level policy committee established in 1990 to advise the U.S. EPA on issues related to implementing the Clean Air Act Amendments of 1990. The committee is chartered under the Federal Advisory Committee Act.

U.S. Environmental Protection Agency (EPA) works to develop and enforce regulations that implement environmental laws enacted by Congress. EPA is responsible for researching and setting national standards for a variety of environmental programs, and delegates to

states and tribes the responsibility for issuing permits and for monitoring and enforcing compliance. Where national standards are not met, EPA can issue sanctions and take other steps to assist the states and tribes in reaching the desired levels of environmental quality.

National Tribal Air Association (NTAA) works to advance air quality management policies and programs, consistent with the needs, interests, and unique legal status of American Indian tribes, Alaska Natives, and Native Hawaiians.

National Museum of the American Indian Seminars and Symposia Office, which provides a public forum that promotes meaningful discussion and understanding about historical and contemporary topics of concern and interest to Native communities in the Western Hemisphere and Hawai'i.
