NERC, "State Electronics Challenge"	The Northeast Recycling Council (NERC) developed and piloted a State Electronics Challenge modeled after the Federal Electronics Challenge. This grant provided outreach to state agencies, municipal and county governments, college and universities, public schools to promote environmentally preferable purchasing of computers using the EPEA environmental performance standard, improved operations and maintenance of computer equipment, reuse, end-of-life management of computers. A Nurtured World	This project will assist in providing education for consumers and leadership groups to reduce consumer environmental impacts – particularly air quality impacts. New methods will be developed and demonstrated to measure the effects of consumer-focused programs in ways that would be acceptable for use in a State Implementation Plan (SIP) or similar agreement. A Nurtured World	Data not yet available. A Nurtured World will provide pollution prevention capacity building for two under-served communities (New Orleans, LA, and Pasadena, TX) utilizing (1) Home Efficiency Programs for low income homes, (2) Pollution Prevention technical assessments for industrial facilities, (3) Consumer and organization pollution prevention workshops addressing consumer and industrial impacts and develop Pollution Prevention capacity and (4) Development of a Community P2 Plan. LA Bucket Brigade	Data not yet available. Long term project measures should come after project is over in FY 11 or 12. Louisiana Bucket Brigade's Refinery Efficiency Initiative's goal is to attain a 25% reduction in incidents and total volume of hazardous released by all 17 refineries in the state of Louisiana through information collection, management and analysis, building the capacity of fence-line neighbors, collaborative partnerships and technical exchanges with industry.
