

Dear Camp Minden Dialogue Participants:

As a reminder, we have a full Dialogue call tomorrow, Thursday, March 5 from 10:30 to 12:30 CT.

For Dialogue participants:
Conference ID: 96415800

Members of the public and others:

Please dial: 866-900-8984 toll-free. To the extent time allows, we will open up the microphones at the end of the call for public comment.

Members of the public and Dialogue participants alike can join the webinar. Click on this link: <https://epa.connectsolutions.com/mindendialogue>. Enter as a guest by typing in your name.

Below please find an agenda for the call and the relevant attachments.

1. Update and Discussion of Next Steps for the Technology Workgroup
 - a. Current status
 - b. Updating of chart
 - c. Proposed process going forward
2. Proposed Agenda for March 11 Meeting (See attachment)
3. Follow-up to Questions
 - a. JC King's resume (See attachment)
 - b. EPA response regarding amending the Administrative Order of Consent (AOC)
 - c. Army response on amending the AOC (See below)

Here is DOD official response to the AOC question.

Our role in the Dialog Committee is truly limited to providing technical advice. We are unable to answer Ms. Kelley's question about the AOC as it is outside our purview. The EPA should be, and I believe is, responding to these questions.

- d. Additional information from Army on immersion of material to transport
4. Public Comment as time allows. Please press *1. If for some reason you are not being acknowledged by the operator when pressing *1 during the public comment period, either raise your hand on the webinar or text Kristi at 970-368-0999.

AGENDA
