Dear U.S. EPA,

KIMZALL (CPPU) Plant Growth Regulator is a valuable tool utilized in the production of our kiwifruit. We support KIM_C's request that you grant an additional year of exclusive use of the data supporting the CPPU registration.

Regards,

John Yohannes

Dear US EPA,

KIMZALL (CPPU) Plant Growth Regulator is and has been a Valuable tool for our production of Kiwifruit. We have seen a 10% to 15% increase in production with the use of CPPU over the last 3 to 4 years. This increase in production has helped make the profit on the Kiwifruit much better, espically due to the high production and labor cost we have had to incorporate over that same time period. We VERY MUCH support KIM-C's request that you grant an additional year

of exclusive use of the data supporting the CPPU registration.

Thank You and Best Regards,

Dr. Ken W. Womack
