“The term ‘brownfield site’ means real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.” (from the federal Brownfields Act of 2002)

SUMMARY OF BROWNFIELDS PROGRAM

Originally begun as an EPA initiative in January 1995, the US EPA National Brownfields Program has since evolved into a collaborative effort involving many federal, state and local partners. In January 2002, the Small Business Liability Relief and Brownfields Revitalization Act (“the Brownfields law”) was signed. This law expanded potential federal assistance for Brownfields revitalization, including grants for assessment, cleanup, and job training. The law also includes provisions to establish and enhance state and tribal response programs, which will continue to play a critical role in the successful cleanup and revitalization of brownfields. Below is a summary of the US EPA Region1 funding for each of the key Brownfields initiatives.

TARGETED BROWNFIELDS ASSESSMENTS (TBA)

Under this initiative, EPA uses its contractors to conduct brownfields assessments at sites identified by the local entity as being a high priority for reuse. Brownfields assessments typically involve a review of existing site records, site sampling and preparation of a preliminary clean-up cost estimate. The information gathered allows local government officials and developers to make informed decisions regarding the redevelopment potential of a site. Below is a summary of the sites and amount of TBA funding received in Maine since 1997.

EPA Targeted Brownfields Assessments		
Recipient	Site	Approx. Value of Assessment
Lewiston	W.S. Libbey Mill Site, 6 Mill Street	\$71,294
	Lewiston & Auburn Railroad Co., 8 Water Street	\$60,151
Old Town	Lily Tulip, North Main Street	\$18,966
Orono	Ayers Island, One Ayers Island	\$111,770
Peru	Diamond Match Mill, Mill Street	\$164,158
EPA-Lead Targeted Brownfields Assessments Total:		\$426,339*
*Funding total current as of May 2007.		

STATE BROWNFIELDS FUNDING

EPA also offers funding to directly support state brownfields activities including funds to establish and enhance state brownfields programs (also known as voluntary cleanup programs), to conduct site specific assessment and cleanup, to develop revolving loan fund programs and to develop insurance tools. Below is a summary of the amount of funding received in Maine since 1994.

Financial Assistance to State Brownfields Program	
Recipient	Funding
Maine Department of Environmental Protection	\$4,291,663
State Program Total:	\$4,291,663*

SHOWCASE COMMUNITIES

As part of the multi-federal agency Brownfields National Partnership, sixteen communities were selected to receive Showcase Community designation following a national competition. The federal partners work with selected communities to revitalize brownfields properties. EPA provided each with a \$200,000 Brownfields Demonstration Pilot and assigned an EPA employee to work full time in the designated community for two years.
