

2006IUR.zip contains 4 Microsoft Access files and this IUR\_2006\_Readme.doc file. The accdb files store the non-confidential IUR records for 2006. More information on the tables included in these accdb files is presented below.

**1) CHEMICAL (6,200 records) – Presents aggregated data for the unique chemicals reported under the 2006 IUR.**

Fields:

CAS (Text)  
CHEM\_NAME1 (Text)  
CHEM\_NAME2 (Text)  
CHEM\_AGG\_P (Text)  
MAX\_CONC (Text)  
CHEM\_PHYSI (Text)  
CHEM\_NUM\_S (Text)  
CHEM\_NUM\_W (Text)  
CHEM\_IND\_P (Text)  
CHEM\_COMME (Text)

**2) COMPANY (24,669 records) – Presents company and site information for chemicals reported under the 2006 IUR. Chemicals that have confidential company and site information will have null company and site fields.**

Fields:

CAS (Text)  
COMPANY (Text)  
SITE\_NAME (Text)  
SITE\_CITY (Text)  
SITE\_STATE (Text)  
SITE\_ZIP (Text)  
MFR\_DATA (Text)  
IMPRT\_DATA (Text)  
SITE\_LIMIT (Text)

**3) IND\_ACTS (11,382 records) – Presents industrial processing and use information for chemicals reported under the 2006 IUR. Chemicals that have confidential or no reported industrial activity information will have null fields.**

Fields:

CAS (Text)  
PROC\_TYPE (Text)  
NAICS\_TITL (Text)  
IND\_FUNCTI (Text)

**4) PROD\_CAT (7,629 records) – Presents commercial and consumer use information for the chemicals reported under the 2006 IUR. Chemicals that have confidential or no reported product category information will have null fields.**

Fields:

CAS (Text)  
PROD\_CAT (Text)  
MAX\_CONC (Text)  
CHILD\_USE (Text)
