

Highway and Nonroad Diesel Fuel Standards										
Who	Covered Fuel	2006	2007	2008	2009	2010	2011	2012	2013	2014
	Highway Diesel Fuel	80% 15 ppm/ 20% 500 ppm				100% 15 ppm (including small refiner fuel)				
Large Refiners/ Importers	NR	500	500	500	15	15	15	15	15	15
Large Refiners/ Importers	LM	500	500	500	500	500	15	15	15	15
	NRLM w/ credits (not in NE/MA or AK)	HS	HS	HS	500	500	500	500	500	15
Small Refiners	NRLM (not in NE/MA, w/ approval in AK)	HS	HS	HS	500	500	500	500	500	15
Transmix Processor & In-use	NR (not in NE/MA or AK)	HS	HS	HS	500	500	500	500	500	15
Transmix Processor & In-use	LM (not in NE/MA or AK)	HS	HS	HS	500	500	500	500	500	15
	ECA Marine Fuel	(no EPA sulfur level requirements)								1,000
<u>2006 dates for HW diesel fuel:</u> June 1 for refiners/importers, September 1 for downstream parties, and October 15 for retailers and wholesale purchaser-consumers										
<u>2010 dates for HW diesel fuel:</u> As of the following dates, all HW diesel fuel must meet the 15 ppm standard- June 1 for refiners/importers, October 1 for downstream parties, and December 1 for retailers and wholesale purchaser-consumers (WPCs)										
<u>2007 dates for NRLM diesel fuel:</u> June 1 for refiners, downstream requirements for NE/MA area* only (August 1 for terminals, October 1 for retailers/WPCs, and December 1 for in-use)										
<u>2010+ dates for NRLM diesel fuel:</u> June 1 for refiners, August 1 for terminals, October 1 for retailers/WPCs, and December 1 for in-use										
<u>2014 dates for ECA Marine fuel:</u> June 1 for refiners, August 1 for terminals, October 1 for retailers/WPCs, and December 1 for in-use										
** Anti-downgrading provisions begin October 15, 2006 **										
*NOTE- No small refiner or credit NRLM can be used in the NE/MA area. Thus, the large refiner NRLM standard is also the in-use standard in the NE/MA area.
