

El Paso Natural Gas Company, LLC  
Laguna Compressor Station  
Part 71 Title V Operating Permit Number R6NM-02-09R1 (replaces R6NMOPP71-02)

**Summary of Revisions in Final Permit**

U.S. Environmental Protection Agency  
February 26, 2015

## **Summary of the Formal Public Participation Process**

The U.S. Environmental Protection Agency, Region 6 (EPA) proposed to issue a Part 71 Title V Operating Permit El Paso Natural Gas Company, LLC for the Laguna Compressor Station. The public comment period on the draft permit began January 13, 2015 and closed on February 12, 2015. EPA announced the public comment period through a public notice published in the *Cibola Beacon* on January 13, 2015, in accordance with 40 CFR § 71.11, and on Region 6's website. EPA also notified affected States and Tribal Nations with a letter dated December 30, 2014, in accordance with 40 CFR § 71.8.

The Administrative Record for the draft permit was made available at EPA Region 6's office. EPA also made the draft permit, Statement of Basis and other supporting documentation available on Region 6's website, and available for viewing at the Pueblo of Laguna Public Library in Laguna, New Mexico.

EPA's public notice for the draft permit also provided the public with notice of the opportunity of a public hearing. The public notice stated that "Any request for a public hearing must be received by the EPA either by email or mail by February 12, 2015, and must state the nature of the issues proposed to be raised in the hearing. EPA did not receive any written comments concerning the draft permit during the comment period, and did not receive any written requests for a public hearing.

## **Revisions in Final Permit**

There were no revisions to the final permit. Since no public comments were received, EPA will make the permit effective immediately in accordance with 40 CFR § 71.11(i)(2)(iii).

## **National Historic Preservation Act (NHPA)**

The Laguna Compressor Station was originally constructed in 1958, and this emissions source is considered as a Grandfathered Source pursuant to the Clean Air Act of 1972.
