

Food Stewardship Resources

Resources for Faith Facilities

- Food Recovery Challenge – EPA is partnering with organizations and businesses to prevent and reduce wasted food. <http://www2.epa.gov/sustainable-management-food/food-recovery-challenge-frc>
- Faith Based Food Recovery Challenge Endorsers – Endorsers help spread the word on the importance of reducing and donating waste food. <http://www2.epa.gov/sustainable-management-food/faith-organizations-and-epas-food-recovery-challenge-frc>
- How to Donate? – This website includes what types of food can be donated and how and where to donate. <http://www2.epa.gov/sustainable-management-food/reduce-wasted-food-feeding-hungry-people>
- How to Compost? – This website includes the benefits of composting and tips on how to compost at home. <http://www2.epa.gov/recycle/composting-home>
- Food Waste Assessment Guidebook – The first step toward reducing wasted food is to perform an assessment to identify what is actually being thrown away. Use this guide to learn how to do a wasted food assessment. <http://www2.epa.gov/sustainable-management-food/tools-assessing-wasted-food#assessguide>
- Food Waste Management Calculator – This calculator estimates the cost savings associated with using alternatives to food waste disposal, including source reduction, donation, and composting. <http://www2.epa.gov/sustainable-management-food/tools-assessing-wasted-food#calculator>
- Waste Reduction Model (WARM) – The WARM tool helps organizations track and voluntarily report greenhouse gas (GHG) emissions reductions from several different waste management practices. www3.epa.gov/warm

Resources for Congregations, Communities, and Individuals

- How Do I Reduce my Food Waste? – This website includes resources on how to donate and ways to reduce your wasted food. <http://www2.epa.gov/recycle/reducing-wasted-food-basics>
- How Do I Compost at Home? – This website includes the benefits of composting and tips on how to compost at home. <http://www2.epa.gov/recycle/composting-home>
- Food Waste Management Calculator – This calculator estimates the cost savings associated with using alternatives to food waste disposal, including source reduction, donation, and composting, sal. <http://www2.epa.gov/sustainable-management-food/tools-assessing-wasted-food>
