

# National Management Measures Guidance to Control Nonpoint Source Pollution from Marinas and Recreational Boating

# **National Management Measures to Control Nonpoint Source Pollution from Marinas and Recreational Boating**

Nonpoint Source Control Branch  
Office of Wetlands, Oceans and Watersheds  
Office of Water  
U.S. Environmental Protection Agency

November, 2001

### **Acknowledgements**

**Edwin Drabkowski**, U.S. Environmental Protection Agency, Office of Water, Nonpoint Source Control Branch, Washington, DC, was the primary author and project leader for this guidance document.

**Sam Pett**, Tetra Tech, Inc., Fairfax, Virginia, assisted in the effort.

**Neil Ross**, Neil Ross Consultants, Kingston, Rhode Island, provided valuable contributions

# CONTENTS

## **SECTION 1: INTRODUCTION**

The Purpose and Scope of This Guidance .....	1-1
Relationship to CZARA Guidance .....	1-2
National Water Quality Inventory .....	1-3
What is Nonpoint Source Pollution? .....	1-4
Watershed Approach to Nonpoint Source Pollution Control .....	1-5
Programs to Control Nonpoint Source Pollution .....	1-7
National Nonpoint Source Pollution Control Program .....	1-7
Storm Water Permit Program.....	1-8
Coastal Nonpoint Pollution Control Program .....	1-8
Clean Vessel Act Pumpout Grant Program .....	1-9
International Convention for the Prevention of Pollution from Ships (MARPOL).....	1-9
Oil Pollution Act (OPA) and Regulations .....	1-10
Sources of Further Information .....	1-10
Watershed Resources .....	1-11

## **SECTION 2: SOURCES OF WATER POLLUTION FROM MARINAS AND RECREATIONAL BOATING**

Pollutant Types and Impacts .....	2-2
Pollutants in the Water Column .....	2-2
Low Dissolved Oxygen .....	2-3
Metals .....	2-3
Petroleum Hydrocarbons .....	2-3
Solvents .....	2-4
Antifreeze .....	2-4
Acids .....	2-4
Surfactants .....	2-4
Pollutants in Aquatic Organisms .....	2-4
Pollutants in Sediments .....	2-5
Metals .....	2-5
Petroleum Hydrocarbons .....	2-5
Pathogens .....	2-5
Debris and Litter .....	2-6
Sediment and Habitat Alterations .....	2-6
Shoaling and Shoreline Alterations .....	2-7

## **SECTION 3: NONPOINT SOURCE POLLUTION CONTROL AND WATERBODY CHARACTERISTICS**

Understanding Management Measures and Practices .....	3-1
How Management Practices Work to Prevent Nonpoint Source Pollution .....	3-2
Management Practice Systems .....	3-4
Site-Specific Design of Management Practices .....	3-4
Important Characteristics of Marina Environments from a Pollution Perspective .....	3-5
General Factors Common to All Waterbodies .....	3-5
Lakes and Reservoirs .....	3-5
Rivers.....	3-6
Estuaries .....	3-6
Coastal Environments .....	3-7

## **Contents**

---

Boating on Inland Waters .....	3-7
Boating Access .....	3-8

## **SECTION 4: MANAGEMENT MEASURES**

Introduction .....	4-1
4.1. Marina Flushing .....	4-7
4.2. Water Quality Assessment .....	4-13
4.3. Habitat Assessment .....	4-19
4.4. Shoreline Stabilization .....	4-27
4.5. Storm Water Runoff .....	4-31
4.6. Fueling Station Design .....	4-45
4.7. Petroleum Control .....	4-53
4.8. Liquid Material Management .....	4-59
4.9. Solid Waste Management .....	4-67
4.10. Fish Waste Management .....	4-73
4.11. Sewage Facility Management .....	4-77
4.12. Maintenance of Sewage Facilities .....	4-87
4.13. Boat Cleaning .....	4-91
4.14. Boat Operation .....	4-95
4.15. Public Education .....	4-99

*Note: A BMP Summary Table follows each Management Measure discussion.*

## **SECTION 5: DETERMINING POLLUTANT LOADS**

Example Models for Marina Flushing Assessment .....	5-2
Selection criteria .....	5-2
Models selected .....	5-3
Simple Model .....	5-3
Mid-Range Models .....	5-5
Tidal prism model .....	5-5
NCDEM DO model .....	5-6
Complex Models .....	5-6
WASP4 .....	5-6
EFDC Hydrodynamic Model .....	5-7
Water Quality Monitoring in Marinas (for modeling applications) .....	5-8
Sampling guidelines for existing marinas .....	5-8
Spatial coverage .....	5-8
Constituents sampled .....	5-9
Sampling locations .....	5-10
Sampling time and frequency .....	5-10

## **APPENDICES**

- A. Best Management Practices Checklist for Marinas and Recreational Boating
- B. Example Oil Spill Response Plan
- C. Tables of Costs and Benefits of Marina Best Management Practices
- D. Federal Laws Related to Marinas and Recreational Boating
- E. Web Sites With Information Related to Marinas and Recreational Boating
- F. Storm Water Runoff Management Practice Tables

## **BIBLIOGRAPHY**

## **GLOSSARY**

**Tables**

1-1	Percentages of surveyed waters supporting designated uses .....	1-4
3-1	Marine sanitation device descriptions .....	3-4
4-1	Common invasive and exotic species of the United States .....	4-21
4-2	Conversion of SIC to NAICS .....	4-32
4-3	Effectiveness of management practices for runoff control .....	4-33
4-4	EPA-designated no-discharge zones in the United States .....	4-83
5-1	Ease of application: Sources, support, and documentation .....	5-4
5-2	Level of effort for best models .....	5-5

**BMP Summary Tables**

	Key to BMP Tables .....	4-4
Table 1	Marina flushing management .....	4-11
Table 2	Water quality assessment management .....	4-17
Table 3	Habitat assessment management .....	4-24
Table 4	Shoreline and streambank stabilization management .....	4-30
Table 5	Storm water runoff management .....	4-40
Table 6	Fueling station design management .....	4-50
Table 7	Petroleum control management .....	4-56
Table 8	Liquid material management .....	4-63
Table 9	Solid waste management .....	4-71
Table 10	Fish waste management .....	4-75
Table 11	Sewage waste management .....	4-84
Table 12	Maintenance of sewage facilities management .....	4-89
Table 13	Boat cleaning management .....	4-94
Table 14	Boat operation management .....	4-98
Table 15	Public education management .....	4-105

**Figures**

1-1	Schematic of a watershed .....	1-6
1-2	MARPOL placard .....	1-10
2-1	Effects of pollutants in aquatic systems .....	2-2
3-1	Typical features of and differences between lakes and reservoirs .....	3-8
4-1	Example marina designs .....	4-9
4-2	Breached breakwater, Puerto Del Rey Marina (PR) .....	4-10
4-3	The Secchi disk .....	4-13
4-4	Scallop monitoring, Cedar Island Marina (CT) .....	4-15
4-5	Biological assemblages used for lake monitoring .....	4-16
4-6	Habitat assessment, Elliot Bay Marina (WA) .....	4-20
4-7	Oak Harbor Marina (WA) sign .....	4-23
4-8	Inland boat repair, Conanicut Marine Service (RI) .....	4-35
4-9	Grassed buffer, Deep River Marina (CT) .....	4-37
4-10	Grassed filter strip .....	4-38
4-11	Crushed gravel lot, Lockwood Boat Works (NJ) .....	4-38
4-12	Underground trench with oil/grit chamber .....	4-39
4-13	PWC floating docks .....	4-47
4-14	High temperature furnace, West Access Marina (IL) .....	4-62
4-15	Filter cloths, Port Annapolis Marina (MD) .....	4-67
4-16	Vacuum sanders, The Lodge of the Four Seasons Marina (MO) .....	4-68
4-17	Closed sandblasting system, Associated Marine Technologies (FL) .....	4-70

## *Contents*

---

4-18	Pumpout station logo .....	4-78
4-19	Examples of pumpout systems .....	4-79
4-20	Pumpout system, Hall of Fame Marina (FL) .....	4-80
4-21	Staff pumpouts, Battery Park Marina (OH) .....	4-80
4-22	An example of a sign declaring a “no discharge” marina .....	4-81
4-23	Disposable doggie bags, Elliot Bay Marina (WA) .....	4-82
4-24	Warning sign that indicates toxicity to both people and the environment .....	4-92
4-25	National Clean Boating Campaign logo .....	4-101
4-26	Sign with instructions to patrons on proper disposal of materials .....	4-102
5-1	Structure of and modules associated with the EFDC model .....	5-7
