REQUEST FOR U.S. ENVIRONMENTAL PROTECTION AGENCY APPROVAL OF AN AMENDMENT TO THE WATER QUALITY CONTROL PLAN FOR THE LAHONTAN REGION TO ESTABLISH: (1) THE LAKE TAHOE TOTAL MAXIMUM DAILY LOAD FOR FINE SEDIMENT PARTICLES, NITROGEN, AND PHOSPHORUS; AND (2) A LAKE TAHOE TMDL IMPLEMENTATION PLAN AND ASSOCIATED CHANGES TO URBAN STORMWATER REGULATIONS IN THE LAKE TAHOE BASIN; WATER BODY ID #CAL6343001019980806120257

Pursuant to federal Clean Water Act sections 303(c)(2) and 303(d)(2), we are submitting for U.S. Environmental Protection Agency's approval an amendment to the Lahontan Region Water Quality Control Plan (Basin Plan) to establish: (1) the Lake Tahoe Maximum Daily Load for fine sediment particles, nitrogen, and phosphorus; and (2) a Lake Tahoe TMDL implementation plan and associated changes to urban stormwater regulations in the Lake Tahoe basin. The California Regional Water Quality Control Board-Lahontan Region (Regional Water Board) adopted this amendment on November 16, 2010 under Resolution No R6T-2010-0058. Subsequently, the State Water Resources Control Board (State Water Board) adopted this amendment on April 19, 2011.

Regional Water Board staff is sending the amendment documentation separately to Susan Hatfield for review of the water quality standards actions (or to forward to the appropriate person) and to you for review of the TMDL.

I have enclosed two Basin Plan amendment documents:

Compact Disk of the U.S. EPA Documents for Review

The enclosed compact disk contains the Basin Plan amendment and portions of the Lahontan Water Board administrative record and State Water Board administrative record requested by U.S. EPA for their review and adoption of the amendment.
