## Chemical Information Submission System

Please Choose a Submission Type

Section 5 Notices and Supports

OK

Section 5 of TSCA, EPA's New Chemicals Programs, helps manage the potential risk to human health and the environment from chemicals new to the marketplace. Anyone who plans to manufacture or import a new chemical substance for a non-exempt commercial purpose is required by section 5 of TSCA to provide EPA with notice before initiating the activity. This premanufacture notice, or PMN, must be submitted at least 90 days prior to the manufacture or import of the chemical. Additional form types are listed to support different circumstances a chemical may be manufactured or imported under. The manufacturing or importing company must also notify EPA within 30 days after the start of the first manufacture or import.

**Please note:** The public reporting and recordkeeping burden for this collection of information is estimated to average 93 hours per response for PMN, SNUN, LVE and LOREX applications (TMEA is estimated to average 88 hours per response), including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed EPA Form 7710-25 to this address.

## HOME

### Forms

TSCA Section 5 Notices and Supports Reporting rule requires any person who manufactures (including imports), processes, or distributes in commerce a chemical substance or mixture and who obtains information which reasonably supports the conclusion that such substance or mixture presents a substantial risk of injury to health or the environment shall immediately inform EPA of such information unless such person has actual knowledge that the Administrator has been adequately informed of such information.

### User Management

Manage the access rights of Supports for each Section 5 Notices and Supports form.

### Resources

A helpful guide that describes the Section 5 Notices and Supports system and provides useful links for further usability instruction.

#### Authorized Official

An Authorized Official has the ability to create, amend, and unlock Section 5 Notices and Supports forms. The Authorized Official must also submit completed forms electronically.

## USER MANAGEMENT

The Authorized Official is responsible for restricting a Support's access to select forms by assigning or unassigning them to each form alias. The Support can access and edit only those forms for which the Authorized Official has granted access. Select the form to manage from the drop-down menu, and assign a Support to the form by highlighting the individual and clicking the **add** link. To unassign a Support, highlight the individual and click the **remove** link. To highlight and assign or unassign multiple Supports, hold down the **Ctrl** or **Shift** keys on the keyboard and click each Support before moving. You must click the **Save** button after each form alias assignment.
