RE: Radiological Survey of Right-of-Way Utility Excavation
Permit No.: 359950613
Permit Address: 167-199 East Ohio Street
AECOM Project No. 60157647

Dear Mr. Jouras:

Pursuant to conditions specified in a permit (attached) issued by the City of Chicago, radiation monitoring was required to be performed for any excavation activities that would disturb subsurface soil at the above referenced site. However, no monitoring was necessary since the work (adjusting a valve box) was able to be completed without excavating subsurface soil. As such, this letter is being submitted in order provide a record that no monitoring was necessary. A PDF of this letter has also been forwarded to:
