RE: Radiological Survey of Right-of-Way Utility Excavation
Permit No.: 477967318
Permit Address: 226-228 East Ontario Street
AECOM Project No. 60157647

Dear Mr. Jouras:

Pursuant to conditions specified in a permit (see attached) issued by the City of Chicago, radiation monitoring was required to be performed at the above referenced site. AECOM Technical Services, Inc. (AECOM) provided the required radiation surveillance on November 3, 2014 for an excavation to decommission an existing gas service line for an address located at 226-228 East Ontario Street.

Surveying was performed on the soil removed from a 3-foot by 5-foot trench excavation within the roadway of East Ontario Street, south of the permitted address (see sketch). The maximum depth of the excavation was approximately 2-feet below ground surface. Backfill in the vicinity of the gas main was primarily clean tan sand with urban fill soil at the southern edge of the excavation. The monitoring revealed no indication of fill soils above the clean-up value established by the U. S. Environmental Protection Agency (USEPA) for the Streeterville area of Chicago. The USEPA cleanup value for Chicago's Streeterville area is 7.1 picocuries per gram (pCi/g) total radium (Ra-226 + Ra-228).

Gamma radiation count measurements for the project were made using Ludlum Model 2221 survey meter and an unshielded 2 x 2 inch NaI probe (Model 44-10). For the instrument used, the gamma count threshold indicative of the 7.1 pCi/g cleanup value is 18,279 counts per minute (cpm) unshielded (6,282 cpm shielded). The field gamma background for the area was measured at approximately 9,356 cpm unshielded as measured at the exposed soil of several trees in the sidewalk. However, background for the sandy backfill material observed in the excavation is lower and likely in the range of 6,000 to 7,000 cpm. Field gamma measurements greater than twice the background count may be considered anomalous results that potentially indicate contaminated fill soil is in close proximity to the excavation. When results greater than twice background are observed they require more cautious and frequent field screening, but are not necessarily indications of the presence of thorium contaminated fill soil. Specifically, there are naturally materials such as granite, clay and brick that may be above twice background. In any case, the field gamma measurements within the excavation and for the spoil materials generated during the excavation process for this project did not exceed twice background or the field instrument threshold equivalent to the USEPA cleanup value.

The field gamma measurements within the excavation during the excavation process did not exceed the unshielded instrument threshold previously stated and ranged from a minimum of 6,200 cpm to a maximum of 8,800 cpm unshielded. Thus, there was no indication of the presence of radiologically-contaminated material and/or an exceedance of the USEPA cleanup value of 7.1 pCi/g total radium.

As part of the permit conditions this letter has been forwarded to:

Chicago Department of Public Health

PERMIT

Permit # 477967318

AMENDED

Received Date: Oct 6, 2014 9:40:46

**PEOPLES GAS LIGHT & COKE CO
130 EAST RANDOLPH
DRIVE
CHICAGO, IL 60601**

**City of Chicago
Department of Transportation
(312) 744-4652**

HERMAN, ROBERT J 773-542-7830

ACTIVITY HOURS

**Start no earlier than 9 AM. Stop no later than 3:30 PM. - Street Opening
(Curb Lane & Traffic Lane)**

DATES

Oct 22, 2014 through Nov 10, 2014

ACTIVITIES

Street Opening (Curb Lane & Traffic Lane):

Dig #: TBD

There will be 1 opening(s) in the public way for the purpose: CUAN DIG.

5 Feet x 3 Feet x 3 Feet

Excavation may commence on - NO SOONER.

226 - 228 E ONTARIO ST

<78533>DEMO CUT-OFF;NPL

OK TO RELEASE PER RAHMAT BEGUM 10/22/14
MORATORIUM STREET MUST RESTORE TO CDOT STANDARDS (
RESURF)

MUST MAINTAIN 2 WESTBOUND LANES AT ALL TIMES
OK M SIMON

Degradation Fee:**Dig #: TBD**

Degradation fee for 5 feet Opening for permit 477967318

226 - 228 E ONTARIO ST

Restrictions:

1. Permit fees must be paid within 24 hours of the date of issuance. Failure to pay will result in you being considered in violation of the terms and agreement of the permit and subject to any applicable fine and fees as if you never attained a permit. Additionally, you will still be responsible for the cost of the original permit. Monthly billing accounts are not applicable to the 24 hour payment criteria but failure to pay the monthly bill by the due date will result in the same penalties applying.
2. A copy of the permit must remain on-site for inspector's review.
3. All directional boring must be pre-approved by the Office of Underground Coordination.
4. Contractor must secure plating over all openings in the roadway and secure all sidewalk/parkway openings during non-working hours until such time when the road surface is restored.
5. All traffic control will be the responsibility of the contractor and must comply with all MUTCD standards.
6. Work permitted only between 9 AM and 3:30 PM.
7. Restore all lanes to normal operation during non-working hours.
8. Must use flagmen and/or arrow boards to maintain traffic operations through the work zone.
9. Contractor must notify DIGGER at 312-744-7000 no less than 48 hours (exclusive of Saturdays, Sundays and Holidays) but no more than 14 calendar days in advance of the start of the excavation or demolition, unless the excavation date was provided with the application and remains unchanged. Prior to 26 calendar days the Contractor must notify DIGGER to renew the dig date!
10. It is the Excavator's responsibility to request refreshing of marks when needed, but no longer than 28 calendar days after the last requested date.
11. When applicable, all excavation areas are to be clearly marked in safety white paint prior to calling DIGGER. White paint is not required for joint meets or emergency work.
12. Excavators requesting dig tickets are responsible for the protection of utility markings at the job site. Any markings of underground utilities utilizing utility colors, must be done by facility owners or authorized agents only.
13. Pursuit to City Ordinances 8-32-140 through 170 use of pneumatic equipment must not begin before 8:00 A.M. or continue after 8:00 P.M.
14. Permittee must provide a sign which identifies the telephone number and company or person performing the work. Signage may be affixed to barricades.
15. Permanent base pavement restoration to follow within 5 days after the completion of

Restrictions:

underground work.

- 16. All pavements and pavement markings are to be restored in accordance with CDOT Construction Standards.
- 17. All street openings must be restored with concrete base to grade.
- 18. Work to be performed as per plans and specifications.
- 19. Streets recently resurfaced must be restored to proper standards (resurface to nearest 1/4 pt, see CDOT Construction Standards for further details).
- 20. WARNING: THIS WORKSITE(S) CONTAINS RADIOACTIVE MATERIAL. ANY QUESTIONS PERTAINING TO HANDLING OF MATERIALS, CONTACT THE DEPT. OF ENVIRONMENT AT 312-744-3152.
- 21. This worksite is a MORATORIUM STREET and must be restored to CDOT standards.
- 22. BIKE FACILITY: On streets with bike markings and/or bike signage the CDOT Bike Program can provide existing pavement marking plans and details. Please contact CDOT Bike Program representative Bradley Topol in advance of activity to ensure restoration of pavement markings. Contact at (312) 744-0513 or at CDOTBikes@cityofchicago.org

SHARED LANE YIELD TO BIKES signs must be posted if bike traffic is shared with vehicular traffic. Please see the CDOT Rules and Regulations For Construction in the Public Way for more guidance on bike temporary traffic control.

- 23. No work in or use of the public right of way is to be done when a special event is taking place. It is up to the applicant to determine if an event is scheduled. To obtain a listing of programs or events within the City of Chicago please dial 311 when you are within the City boundaries.
- 24. It is the responsibility of the applicant to fund Traffic Control Aides if the City deems it necessary due to heavy congestion situations.
- 25. Pursuit to City Ordinances 10-20-150 and 10-28-281.3 a re-inspection fee of \$100 may be assessed for each inspection conducted after the initial inspection.
- 26. All metal plates used for public way construction or placed within the right-of-way must indicate Ownership!

Degradation Fee
