Clean Watersheds Needs Survey 2012

U.S. Virgin Islands

The Clean Watersheds Needs Survey (CWNS) is a comprehensive assessment of needs to meet the water quality and water-related public health goals of the Clean Water Act (CWA). States and the U.S. Environmental Protection Agency (EPA) conduct the CWNS every four years under CWA Section 516 (b). The U.S. Virgin Islands did not participate in the 2004 and 2008 surveys. Visit www.epa.gov/CWNS for more information.
