

On This Day, March 2, 2004

Louisiana Department of Environmental Quality
U.S. Environmental Protection Agency, Region 6

Present to

ExxonMobil Corporation
Refining & Supply
Global Remediation Retail Projects

Ready for Reuse Determination

In recognition of the ExxonMobil Corporation's efforts to investigate and, where needed, remediate five underground storage tank sites in Louisiana (the "Properties"), the Louisiana Department of Environmental Quality (LDEQ) and the United States Environmental Protection Agency (EPA) Region 6 together have determined that the Properties are Ready for Reuse. As documented in the Ready for Reuse Determination Letter of March 2, 2004, the Ready for Reuse Determination is an acknowledgment that environmental conditions on the Properties are protective of human health and the environment based on their current and anticipated commercial/industrial use.
