

100% Green Power Users (as of July 1, 2014)

The 100% Green Power Users list represents the Partners that are using green power to meet 100 percent of their U.S. organization-wide electricity use. The combined green power use of these organizations amounts to nearly 12 billion kilowatt-hours of green power annually, which is equivalent to avoiding the carbon dioxide emissions from the electricity use of more than 1.1 million average American households each year.
