

## National Top 100 Partner List (as of July 6, 2015)

The National Top 100 list represents the largest green power users within the Green Power Partnership. The combined green power usage of these Top 100 Partners amount to nearly 24 billion kilowatt-hours annually, which represents more than 82 percent of the green power commitments made by all EPA Green Power Partners.

\*Reflects the amount of green power as a percentage of total electricity use. Partners choosing to purchase green power in an amount exceeding 100 percent of their U.S. organization-wide electricity use are listed as such.

°Indicates Provider is selling Partner a third-party certified green power product. For more information on third-party certification, visit
