

## Top 30 K-12 Schools Partner List (as of January 6, 2015)

The Top 30 K-12 Schools list represents the largest green power users among K-12 school partners within the Green Power Partnership. The combined green power use of these organizations amounts to more than 77 million kilowatt-hours of green power annually, which is equivalent to avoiding the carbon dioxide emissions from the electricity use of more than 7,300 average American homes each year.

\*Reflects the amount of green power as a percentage of total electricity use. Partners choosing to purchase green power in an amount exceeding 100 percent of their U.S. organization-wide electricity use are listed as such.

°Indicates Provider is selling Partner a third-party certified green power product. For more information on third-party certification, visit <http://www.epa.gov/greenpower/buygp/certified.htm>.
