Re: North Carolina's Recommendations for Air Quality Designations
for the Nitrogen Dioxide Standard

Dear Ms. Fleming:

I am writing on behalf of Governor Beverly E. Perdue in response to your letter dated July 1, 2011, regarding the 120 day response to North Carolina's designation recommendation for the national ambient air quality standard (NAAQS) for nitrogen dioxide (NO₂), pursuant to Section 107(d)(1)(A) of the Clean Air Act as amended.

Your letter stated that you would be designating all areas of North Carolina for the NO₂ NAAQS as "unclassifiable/attainment" since there is no evidence of violations anywhere in the country. Additionally, you recommended that North Carolina carefully consider the implication for the Prevention of Significant Deterioration permitting program of having the entire state designated as a single area rather than smaller areas (e.g., counties, groups of counties, etc.).

North Carolina would like to amend our initial boundary recommendation submitted December 16, 2010, to take the United States Environmental Protection Agency's (USEPA's) suggestion into consideration. Therefore, when the USEPA promulgates the final designations in October 2011, please designate each area as listed in the attach table.

North Carolina is committed to protecting the health of our citizens and solving our air quality problems. We believe that improving our air quality is critical to the health of our citizens and

Gwen K. Fleming

that our future growth, prosperity and quality of life will be threatened if we do not remain diligent. We look forward to a continued dialogue with you and your staff as we work together to implement the 2010 NO2 NAAQS.

Sincerely,

A handwritten signature in black ink that reads "Dee Freeman". The signature is written in a cursive style with a long horizontal flourish at the end.

Dee Freeman
