OFFICE OF THE GOVERNOR

PATTY JUDGE
LT. GOVERNOR

September 10, 2009

William Rice
Acting Regional Administrator
US EPA Region VII
901 North 5th Street
Kansas City, KS 66101

Dear Mr. Rice:

On November 12, 2008, the Environmental Protection Agency (EPA) revised the national ambient air quality standard (NAAQS) for lead. Within one year of promulgation of a new or revised NAAQS, section 107(d)(1)(A) of the Clean Air Act requires the Governor of each state to submit to EPA a list of all areas in the state, recommending designations for each as "attainment," "nonattainment," or "unclassifiable" with respect to the new or revised standard.

Iowa currently has no lead monitors. I therefore request that EPA designate all counties in Iowa as attainment/unclassifiable with respect to the new lead NAAQS.

Iowa is in the process of establishing a lead monitoring network in accordance with the provisions of the revised lead NAAQS, with data collection beginning in January of 2010. We expect to be able to provide you with a more meaningful assessment of lead levels in Iowa's air in the future.

Sincerely,

A handwritten signature in cursive script that reads "Chester Culver".

Chester J. Culver
Governor of Iowa
