Exposure Methods and Measurements Division

### Mailing Address

[willis.robert@epa.gov](mailto:willis.robert@epa.gov)

**Area of Expertise:** Robert's research focuses on applications of electron microscopy to environmental forensics. He manages the NERL Scanning Electron Microscopy (SEM) Laboratory. Robert develops SEM-based passive aerosol samplers and computer-controlled SEM techniques and conducts field studies to identify and understand pollution sources. His research interests include air quality monitoring, characterization of particulate matter, source apportionment, linking PM to human health effects, aerosols and climate change, and nanomaterials.
