JUL 12 2000

Ref: 8P-AR

Margie Perkins, Director  
Air Pollution Control Division  
Colorado Department of Public Health and Environment  
4300 Cherry Creek Drive South  
Denver, Colorado 80246-1530

Dear Margie:

Pursuant to Section 93.118(e) of the Transportation Conformity Rule (40 CFR Part 93, Subpart A), EPA has reviewed the Denver carbon monoxide maintenance plan, the Pagosa Springs PM10 maintenance plan, and the Telluride PM10 maintenance plan submitted by Governor Bill Owens on May 10, 2000, in order to determine the adequacy of the emissions budgets for carbon monoxide and PM10 contained in these plans for purposes of conformity. The conformity rule spells out limited technical and administrative criteria that we must use in determining adequacy of submitted emissions budgets, and we have determined that these criteria have been satisfied for these emissions budgets. Therefore, we find that these budgets are adequate for transportation conformity purposes. As a result of our adequacy finding, the Denver Regional Council of Governments, the Colorado Department of Transportation, and the U.S. Department of Transportation are required to use these budgets in future conformity analyses.

On March 2, 1999, the United States Court of Appeals for the District of Columbia Circuit issued a decision in *Environmental Defense Fund vs. the Environmental Protection Agency*, No. 97-1637, that we must make an affirmative determination that the submitted motor vehicle emission budgets contained in State Implementation Plans are adequate before they are used to determine the conformity of Transportation Improvement Programs or Long Range Transportation Plans. In response to the court decision, we make any submitted SIP revision containing a control strategy plan available for public comment and respond to these comments before announcing our adequacy determination.

On May 10, 2000, Governor Bill Owens submitted the Denver, Pagosa Springs and Telluride maintenance plans. We announced receipt of the plans on the Internet and requested public comment by July 5, 2000. We received no comments on the plans during that comment period. As part of our review, we also reviewed comments submitted to the Air Quality Control Commission on the maintenance plans during the public hearing process. There were no comments submitted during the State hearing process regarding the budgets.

We will announce this adequacy determination in the Federal Register, but that notice will not constitute a new action or change the effect of this letter. This determination will become effective 15 days after the Federal Register announcement. If you have any questions, please contact me at (303) 312-6005, or Megan Williams of my staff at (303) 312-6431.

Sincerely,

A handwritten signature in black ink, appearing to read 'Richard R. Long', written over a horizontal line.

Richard R. Long, Director  
Air and Radiation Program
