We will begin the webinar shortly.

For audio, please dial 1-866-299-3188, code#: 202.343.9534

Please Mute Your Line.

*Please* DO NOT put the line on hold.

If we are unable to answer your question at this time, we will list all questions and answers in the FAQ document available at www.epa.gov/cleandiesel/clean-diesel-tribal-grants#faq

Handouts for this presentation are available at www.epa.gov/cleandiesel/clean-diesel-tribal-grants
National Clean Diesel Funding Assistance

FY 2016 Tribal Request for Proposals Information Session

Lucita Valiere
June 22, 2016
Why Clean Diesel?

- Diesel engines are the workhorses of the nation; millions of diesel engines already in use continue to emit large amounts of nitrogen oxides, particulate matter and air toxics.

- These emissions are linked to premature deaths, asthma attacks, lost work days, and other health impacts every year.
Diesel Emissions Reduction Act

- DERA originally authorized under the Energy Policy Act of 2005
- Amended by the Diesel Emissions Reduction Act of 2010 (Public Law 111-364)
- Enables EPA to offer funding assistance
  - Goal to reduce diesel emissions
  - Competitive process for eligible entities
  - Authorized through 2016
- Request for Proposals (RFP) = Competition
Basic Information

- National Funding Assistance Program
  - Estimated Fiscal Year 2016 Tribal RFP funding - $1 million
  - Due Tuesday, August 23, 2016 at 4:00 PM Eastern Time
  - Specific times/instructions specified (Section IV)

- One Method for Submitting Application
  - Electronically via [www.grants.gov](http://www.grants.gov)
    - Please see RFP for grants.gov instructions and Limited Exception Procedures
Eligible Entities (Section III.A)

A tribal agency or intertribal consortium with jurisdiction over transportation or air quality.

- Tribal agencies are defined as Federally recognized Indian tribal governments, which are any Indian tribe, band, nation, or other organized group or community (including Native villages) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs as well as any organization or intertribal consortium that represents Federally recognized tribes.

- For the purposes of this RFP, “intertribal consortium” is defined as a partnership between two or more tribes that is authorized by the governing bodies of those tribes to apply for and receive assistance under this program. Intertribal consortia are eligible to receive assistance under this program only if the consortium demonstrates that all members of the consortium meet the eligibility requirements for the program and authorize the consortium to apply for and receive assistance by submitting to EPA documentation of (1) the existence of the partnership between Indian tribal governments, and (2) authorization of the consortium by all its members to apply for and receive the assistance.
Proposal Submission Limit

Applicants can submit more than one proposal as long as they are for different projects and submitted separately. A single proposal may target multiple fleets, fleet types and/or diesel emission reduction solutions.
Eligible Grant Amount

- Proposals from eligible Tribal agencies or intertribal consortia requesting EPA funding not to exceed $800,000 will be considered. It is anticipated that approximately one to five cooperative agreements will be made from this announcement. (Section II.A)
  - Each proposal must be for a requested amount within that specified range
  - This amount could dictate the size and type of your project (e.g., how many vehicles, what type of technology, etc.)
Eligible Vehicles, Engines & Equipment (Section I.B.1)

- May include, but are not limited to
  - Buses;
  - Medium-duty or heavy-duty trucks;
    - Class 5 - and greater
  - Marine engines;
  - Locomotives; and
  - Non-road engines, equipment or vehicles used in:
    - Construction; Handling of cargo (including at a port or airport); Agriculture; Mining; or Energy production (including stationary generators and pumps)
Eligible Projects (Section I.B.2)

- Verified Exhaust Control Technologies
- Verified/Certified Engine Upgrades
- Verified/Certified Cleaner Fuel Use
- Verified Idle Reduction Technologies
  - Bundled with exhaust control technologies
    - Auxiliary Power Units, Fuel Operated Heaters, etc.
  - Also includes shore connection systems and electrified parking spaces
- Verified Aerodynamic Technologies & Low Rolling Resistance Tires
  - Trailer side skirts, trailer gap reducers, tires, etc.
- Certified Engine Repowers
- Vehicle and Equipment Replacements
Project Funding Percentage
(Section I.B.2)

- Exhaust Controls - up to 100% of the cost
  - Diesel Oxidation Catalysts, Diesel Particulate Filters, etc.
- Engine Upgrades/Repowers - up to 75% of the cost
  - Generators and ag pump replacements
- Cleaner Fuels - cost differential between conventional fuel and cleaner fuel
  - EPA will **NOT** fund stand alone cleaner fuel use
Verified Idle Reduction Technologies

EPA will **NOT** fund stand alone idle reduction technologies **EXCEPT:**

- Locomotive idle reduction up to 40% of the cost
- Shore connection systems (locomotive and marine) up to 40% of the cost
- Electrified parking spaces (truck stop electrification) up to 40% of the cost

Other idle reduction projects - 100% when combined on the same vehicle with new eligible verified exhaust control funded under this RFP

- Example: Auxiliary Power Unit AND Diesel Particulate Filter on a truck
Project Funding Percentage (Section I.B.2)

- **Verified Aerodynamic Technologies (Aero) and Low Rolling Resistance Tires (Tires)**
  - EPA will NOT fund stand-alone Aero and/or Tires projects
  - If Aero and/or Tires are combined on the same vehicle with a verified exhaust control technology funded under this RFP, EPA will fund up to 100% of the cost of all technologies
    - Example: Low Rolling Resistance Tires AND Diesel Particulate Filter on a truck
Certified Engine Repowers

- EPA will fund up to 75% of the cost
  - Repowers must be certified to a more stringent set of engine emission standards than the old engine
  - Repower costs may include associated hardware
  - Includes generator and ag pump replacements
  - The engine being replaced must be:
    - Scrapped
Project Funding Percentage (Section I.B.2)

- **Vehicle and Equipment Replacements**
  - **Non-Road Diesel Vehicles and Equipment**
    - Stationary Generators and Agricultural Pumps – up to 75% of the cost by an engine certified to EPA Tier 3 or 4 emission standards
    - Stationary generators in the “remote Alaska” area are eligible for repower or replacement with certified Tier 3 marine engines with appropriate PM controls, as defined in EPA’s RICE Rule
    - **All other Nonroad - up to 50% of the cost** by an engine certified to EPA Tier 3 or 4, or an all-electric nonroad vehicle or piece of equipment
  - **Highway Diesel Vehicles** – up to 50% of the cost of a replacement vehicle powered by a 2012 model year or newer engine certified to EPA emissions standards, or an all-electric vehicle.
  - The vehicle/equipment being replaced must be:
    - Scrapped
Funding Restrictions (Section III.D)

- **Funding restrictions for vehicles and equipment (Section III)**
  - Class 5 - Class 8 heavy-duty highway vehicle that is not fully operational and in current, regular service.
  - With regard to Class 5 - Class 8 heavy-duty highway vehicles and transit buses, no funds awarded under this RFP shall be used to retrofit engine model year 2007 or newer with DOCs or DPFs, or retrofit engine model year 2011 or newer with SCR, or replace or repower engine model year 2007 or newer with anything other than all-electric (zero-emission).
    - Nonroad equipment that operate less than 500 hours/year are **NOT** eligible
    - Locomotives and Marine engines that operate less than 1000 hours/year are **NOT** eligible.
    - Minimum usage requirements for marine and locomotive shore connection systems
Funding Restrictions (Section III.D) cont’d

Marine Engine must operate more than 1000 hours per year.

*Automatic Engine Start-Stop technologies are only eligible to be installed on locomotives currently certified to Tier 0 or unregulated.
Funding Restrictions (Section III.D) cont’d

• Restriction for Mandated Measures: No funds awarded under this RFP shall be used to fund the costs of emission reductions that are mandated under federal law.

• Specifically, projects involving locomotives and marine engines will not be considered for funding under this RFP if the emission reductions proposed for funding are required by EPA’s locomotive and marine rule, “Control of Emissions of Air Pollution from Locomotives and Marine Compression-Ignition Engines Less than 30 liters per Cylinder.” Also, projects involving stationary engines will not be considered for funding under this RFP if the emission reductions proposed for funding are required by EPA’s RICE rule, “National Emission Standards for Hazardous Air Pollutants (NESHAP) for Stationary Reciprocating Internal Combustion Engines (40 CFR Part 63 Subpart ZZZZ).
Proposals which include locomotives, marine engines or generators must include a clear and concise justification for why/how the proposed emission reduction are not subject to the Restriction for Mandated Measures under this RFP.

Please see Appendix E for each of the mandated measure information.
Reminder!

- For audio, please dial 1-866-299-3188,
- code#: 202.343.9534
- Please mute your lines.
- **Please DO NOT** put the line on hold.
- Please type your questions into the question box at this time and we will address as many as possible after the presentation.
- If we are unable to answer your question at this time, we will list all questions and answers in the FAQ document available at: [www.epa.gov/cleandiesel/clean-diesel-tribal-grants](http://www.epa.gov/cleandiesel/clean-diesel-tribal-grants)
Proposal Submission

- Submit proposals:
  - Electronically via [www.grants.gov](http://www.grants.gov)

- If not currently registered with Grants.gov, designate an Authorized Organization Representative (AOR) and begin the registration process as soon as possible.

- The registration process requires that your organization have a DUNS number and a current registration with the System for Award Management (SAM) and the process of obtaining both could take a month or more.
Proposal Submission

All proposals must be prepared, and include the information, as described in Section IV.C Grants.gov Submission: Please see Appendix A, Grants.gov Submission Instructions Proposal Submission Deadline: Your organization’s authorized official representative (AOR) must submit your complete proposal electronically to EPA through Grants.gov (www.grants.gov) no later than Tuesday, August 23, 2016, 4:00 PM Eastern Time (EDT), not local time.

- Limited Exception Procedures in Section IV.A. of RFP

Proposal Submission Contact:
Lucita Valiere
206-553-8087
valiere.lucita@epa.gov
Proposal Evaluation Process

- **Step 1: Threshold Eligibility Criteria Review (Section III.C)**
  - Must meet ALL 6 threshold criteria to move on to Step 2

- **Step 2: Evaluation Criteria (Section V.A)**
  - Nine evaluation criteria – points assigned to each
  - 110 points possible
Proposal Selection Process

- Given numerical score and rank-ordered (following Steps 1 and 2, discussed previously)
- Funding Recommendation provided to EPA Approving Official
- EPA Approving Official considers rank and may consider Other Factors (Section V.C), then selects proposals to fund
## Evaluation Criteria (Section V.A)

</tbody>
</table>
1. **Project Summary and Approach:** Under this criterion, proposals will be evaluated based on the extent and quality to which the applicant addresses the requirements in Appendix B, Section 1: “Project Summary.” Specifically:

   a. **(5 points)** Vehicles and Technologies;

   b. **(5 points)** Roles and Responsibilities;

   c. **(5 points)** Timeline and Milestones;

   d. **(5 points)** whether the proposal includes a well-conceived strategy for achieving the anticipated results associated with the project; and

   e. **(5 points)** whether the proposal sets forth a reasonable time schedule for the execution of the tasks associated with the project and for achieving the project goals and objectives by project end.
Evaluation Criteria (Section V.A.2)

Project Location

2. **Project Location**: Under this criterion, applicants will be evaluated based on:

   a. *(5 points)* whether the proposals includes a description of the primary areas where the affected vehicle/engine operate

   b. *(5 points)* projects located in areas of poor air quality (Ozone or PM 2.5 Nonattainment or Maintenance areas)

   c. *(5 points)* projects located in areas that receive a disproportionate quantity of air pollutions from diesel fleets (truckstops, ports, rail yards, terminals, construction sites, school bus depots/yards)
3. **Benefits to the Community (5 points):** Under this criterion, applicants will be evaluated based on the quality and extent to which their proposals demonstrate how the proposed project will address the needs and concerns of the local community, including communities or populations that have faced or are facing environmental justice concerns.
4. Partnerships (5 points) - Under this criterion, applicants will be evaluated on the extent and quality to which the applicant has leveraged additional resources and expertise to further the applicants’ diesel emission reduction goals, and to gain additional diesel emission reductions from the vehicles and engines targeted under this program.
5. Project Sustainability (5 points): Under this criterion, proposals will be evaluated based on extent and quality to which the applicant can demonstrate its ability to promote and continue efforts to reduce emissions after EPA funding for this project has ended.
Evaluation Criteria - Environmental Results Outputs, Outcomes and Performance Measures (Section V.A.6)

Environmental Results – Outputs, Outcomes, and Performance Measures: Under this criterion, applicants will be evaluated based on:

- A. (10 points) The extent and quality to which the applicant identifies and quantifies the expected project outputs and outcomes.

- B. (5 points) The effectiveness of the applicant’s plan for tracking and measuring its progress toward achieving the expected projects outputs and outcomes, including the performance measures proposed by the applicant and how they will be used to help track and measure the applicants progress towards achieving the expected outputs and outcomes.
Evaluation Criteria - Programmatic Capability and Past Performance (Section V.A.7)

- Programmatic Capability and Past Performance: Under this criterion, applicants will be evaluated based on their ability to successfully complete and manage the proposed project taking into account their:

  A. (5 points) Past Performance is successfully completing and managing the assistance agreements identified in the Project Narrative.

  B. (5 points) History of meeting the reporting requirements under the assistance agreements identified in the Project Narrative, including whether the applicant submitted acceptable final technical reports under those agreements and the extent to which the applicant adequately reported on their progress towards achieving the expected outputs and outcomes under those agreements and if such progress was not being made whether the applicant adequately reported why not;

  C. (5 points) Organizational experience and plan for timely and successfully achieving the objectives of the proposed project; and
D. (5 points) Staff Expertise and qualifications, staff knowledge, and resources or the ability to obtain them, to successfully achieve the goals of the proposed project.
Evaluation Criteria (Section V.A.8)

Budget

- Under this criterion, the Agency will evaluate the proposed project for the following items:

  A. (5 points) Applicants will be evaluated based on their approach, procedures, and controls for ensuring that awarded grant funds will be expended in a timely and efficient manner.

  B. (5 points) Whether costs are reasonable to accomplish the proposed goals, objectives, and measurable environmental outcomes, and ;

  C. (5 points) Whether the proposed budget provides a detailed breakout of the approximate funding used for each major activity.
9. Applicant Fleet Description: Under this criterion, applicants will be evaluated based on the degree to which detailed information on the target fleet (vessel(s), vehicle(s), engine(s) and/or equipment) is provided.
Cost-Share (Section III.B)

- Types of Cost-Share:
  - Mandatory and Voluntary (overmatch)
- Must be included on SF-424 & SF 424A forms and in the proposal budget
- The proposal must describe how and when the applicant will obtain the cost-share and how the cost-share funding will be used
- If the proposed cost-share is to be provided by a project partner, a letter of commitment is required
Consultant, Contractor & Vendor Participation

- Grantees must compete contracts for services and products.
- Applicants are not required to identify contractors, consultants, or vendors in their proposal.
- Naming a specific contractor, consultant or vendor in the proposal does not relieve the applicant of its obligations to comply with competitive procurement requirements.
- Applicants may not award sole source contracts to consultants, contractors or vendors assisting applicants with the proposal solely based on the firm's role in preparing the proposal.
Potential Pitfalls

- Project changes mid-stream are not likely to be allowed
  - Potential competition issues – scores are based on vehicles/technologies/locations
  - Applicants need to think through the project and anticipate technology challenges

- Vehicle & technology options & limitations
  - Not all technology combinations are appropriate for all vehicles
    - i.e. DPFs must meet exhaust temperature thresholds

- Do as much homework ahead of time as possible to avoid complications
Potential Pitfalls

- Thoroughly plan and document engine upgrades & repowers
  - Upgrades & repowers must achieve reductions based on verified levels or to more stringent standards
  - Many older vehicles cannot accept current technology engines
- Complete, new emission control systems must be included
  - Make sure to check model years and tiers of proposed engines to make sure they’re eligible for funding
Potential Pitfalls

- Technology must be verified for *specific type* of vehicle and model year – check the EPA and CARB verified technologies lists!
  - Review verification letters, attachments & criteria
  - Thoroughly evaluate candidate vehicles
  - Obtain detailed documentation from vendors
  - Retain complete records for each installation

- Reporting, Reporting, Reporting
  - Expect more transparency and monitoring
  - Quarterly reports, detailed fleet info, national databases, verifiable results & records
Tools and Resources

- Supporting Information for the Tribal RFP at: www.epa.gov/cleandiesel/clean-diesel-tribal-grants
  - Applicant Fleet Description
    - Required part of the proposal – describes fleet in detail
  - Project Narrative Sample Format
  - Tribal Priority County and Area List

- Diesel Emissions Quantifier (DEQ)
  - Can be used to show expected project results, cost-effectiveness, and public health benefits
  - www.epa.gov/cleandiesel/diesel-emissions-quantifier-deq

- Technology Tips Guide
  - Helpful info about each type of project, technical issues to look out for, etc.
Additional Support

► Frequently Asked Questions

► Posted weekly, on webpage
► List will include questions from today’s webinar
► Deadline for submitting questions is Friday, August 12, 2016 at 4:00 PM (Eastern time).
► Submit questions via email to cleandiesel@epa.gov or 1-877-NCDC-FACTS (1-877-623-2322)
  ► Please type “Tribal RFP Question” in the subject line of email
  ► www.epa.gov/cleandiesel/clean-diesel-tribal-grants
Thank You!

FY 2016 Tribal Request for Proposals Information Session

All lines are muted. Please type your questions into the question box at this time and we will address as many as possible.

If we are unable to answer your question at this time, we will list all questions and answers in the FAQ document available at www.epa.gov/cleandiesel/clean-diesel-tribal-grants#faq
