ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R06-OAR-2011-0695; FRL-9957-42-Region 6]

Approval and Promulgation of Implementation Plans; New Mexico; Albuquerque/Bernalillo County; Inspection and Maintenance Program Error Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Pursuant to the Federal Clean Air Act (CAA or Act), the Environmental Protection Agency (EPA) is proposing to approve an error correction to a previously approved diesel inspection and maintenance (I/M) program provision in Albuquerque/Bernalillo County's State Implementation Plan (SIP). This action is based on our determination that at the time EPA approved the diesel I/M Program the State did not have the legal authority to expand its program to require the testing of 1998 and newer diesel motor vehicles greater than 1,000 and less than 10,001 pounds.

SUPPLEMENTARY INFORMATION: In the final rules section of this **Federal Register**, the EPA is approving the State's SIP submittal as a direct rule without prior proposal because the Agency views this as noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action no further activity is contemplated. If the EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

For additional information, see the direct final rule which is located in the rules section of this **Federal Register**.

Dated: January 11, 2017.

Ron Curry,
Regional Administrator, Region 6.
