Re: Amendment to Notice of Intent – Dewatering General Permit
DCAM Project BSC0401 DC1
Marshall Conant Science Building Modernization and Expansion
Bridgewater State College
Bridgewater, Massachusetts

Dear Sir or Madam:

133 Federal St
Floor 3
Boston
Massachusetts
02110
617-963-1000
FAX 617-482-6868
www.gza.com

On behalf of Bridgewater State College, GZA GeoEnvironmental, Inc. (GZA) has prepared the attached Amendment to Notice of Intent (NOI) for coverage under the National Pollutant Discharge Elimination System (NPDES) Dewatering General Permit (GDP) during temporary construction-related dewatering for the above referenced project. The purpose of this amendment is to add two additional outfalls to the application, increase the estimated maximum daily flow from 76,000 gallons per day (gpd) to 216,000 gpd, increase the average daily flow from 30,000 to 175,000 gpd, change the flow to continuous, and revise the dewatering end date to December 1, 2010. The original NOI application was submitted on November 3, 2009 and the permit (MAG070341) was issued on November 24, 2009.

Bridgewater State College under the guidance of the Massachusetts Division of Capital and Asset Management (DCAM) will be completing the Marshall Conant Science Building Modernization and Expansion. This project will require temporary dewatering of groundwater in limited areas of the site during construction activities, including a basement excavation below existing groundwater levels. All construction activities that may require dewatering will be conducted on a portion of the site that is less than one-acre in area.

This NOI amendment has been prepared to request coverage under the NPDES DGP for discharge of stormwater and/or uncontaminated groundwater to the existing site stormwater drainage system with subsequent discharge to the nearby Town River. This amendment request consists of the revised NOI with the additional outfalls added and with the original supporting documentation as required by the US Environmental Protection Agency (EPA). The flow map has also been updated to include the additional outfalls. A copy of this NOI amendment has also been submitted to the Massachusetts Department of Environmental Protection (MassDEP) Watershed Permitting Program.

Should you have any questions regarding this NOI amendment, please do not hesitate to contact the undersigned.

Sincerely,
GZA GeoEnvironmental, Inc.

II. Suggested Notice of Intent (NOI) Form

1. General facility information. Please provide the following information about the facility.

a) Name of facility: Bridgewater State College	Mailing Address for the Facility: 131 Summer Street, Bridgewater, Massachusetts 02325	
b) Location Address of the Facility (if different from mailing address): Conant Science Building, 48 Park Avenue, Bridgewater MA 02325	Facility Location longitude: 41 deg 59'18" latitude: 70 deg 58'14"	Type of Business: Massachusetts State College Facility SIC codes:
c) Name of facility owner: Div. of Asset & Capital Mgmt (DCAM) Owner's email: <u>barry.heidke@state.ma.us</u>		
Owner's Tel #: <u>Barry Heidke, 617 727 4030 X 375</u>	Owner's Fax #: _____	
Address of owner (if different from facility address) DCAM, One Ashburton Place, 15th Floor, Boston 02108		
Owner is (check one): 1. Federal _____ 2. State ☒ 3. Tribal _____ 4. Private _____ 4. Other _____ (Describe)		
Legal name of Operator, if not owner: <u>Barr & Barr, Construction Manager</u>		
Operator Contact Name: <u>Keith Lavery, Site Superintendent</u>		
Operator Tel Number: <u>(413) 652-3024</u> Fax Number: <u>(413) 739-7684</u>		
Operator's email: <u>klavery@barrandbarr.com</u>		
Operator Address (if different from owner) Barr and Barr, 260 Cochituate Road, 2nd Floor Framingham, MA 01701		
d) Attach a topographic map indicating the location of the facility and the outfall(s) to the receiving water. Map attached? ☒ Attachment A		
e) Check Yes or No for the following:		
1. Has a prior NPDES permit been granted for the discharge? Yes _____ No ☒ If Yes, Permit Number: _____		
2. Is the discharge a "new discharge" as defined by 49 CFR Section 122.22? Yes ☒ No _____		
3. Is the facility covered by an individual NPDES permit? Yes ☒ No _____ If Yes, Permit Number <u>MAR04027</u>		
4. Is there a pending application on file with EPA for this discharge? Yes _____ No ☒ If Yes, date of submittal: _____		

2. Discharge information. Please provide information about the discharge, (attaching additional sheets as needed)

- a) Name of receiving water into which discharge will occur: Town River Freshwater: X Marine Water: _____
State Water Quality Classification: Class B
- b) Describe the discharge activities for which the owner/applicant is seeking coverage:
1. Construction dewatering of groundwater intrusion and/or storm water accumulation.
2. ~~Short-term or long-term dewatering of foundation sumps.~~
3. ~~Other.~~
- c) Number of outfalls 3
- For each outfall:
- d) Estimate the maximum daily and average monthly flow of the discharge (in gallons per day – GPD). Max Daily Flow 216,000 GPD
Average Monthly Flow 175,000 GPD
- e) What is the maximum and minimum monthly pH of the discharge (in s.u.)? Max pH 7 Min pH 6
- f) Identify the source of the discharge (i.e. potable water, surface water, or groundwater). If groundwater, the facility shall submit effluent test results, as required in Section 4.4.5 of the General Permit. Groundwater and Stormwater, See Attachment B
- g) What treatment does the wastewater receive prior to discharge? Sedimentation tank to bag filter to discharge
- h) Is the discharge continuous? Yes ✓ No _____ If no, is the discharge periodic (P) (occurs regularly, i.e., monthly or seasonally, but is not continuous all year) or intermittent (I) (occurs sometimes but not regularly) or both (B) _____
If (P), number of days or months per year of the discharge _____ and the specific months of discharge _____;
If (I), number of days/year there is a discharge _____
Is the discharge temporary? Yes ✓ No _____
If yes, approximate start date of dewatering November 1, 2009 approximate end date of dewatering December 1, 2010
- i) Latitude and longitude of each discharge within 100 feet (See http://www.epa.gov/tri/report/siting_tool): Outfall 1: long. -70.9678 lat. 41.9928 ;
Outfall 2: long. -70.9694 lat. 41.9886; Outfall 3: long. -70.9700 lat. 41.9878.
- j) If the source of the discharge is potable water, please provide the reported or calculated seven day-ten year low flow (7Q10) of the receiving water and attach any calculation sheets used to support stream flow and dilution calculations N/A cfs
(See Appendix VII for equations and additional information)

MASSACHUSETTS FACILITIES: See Section 3.4 and Appendix 1 of the General Permit for more information on Areas of Critical Environmental Concern (ACEC):

- k) Does the discharge occur in an ACEC? Yes ☐ No ☒ See Attachment C
If yes, provide the name of the ACEC:

3. Contaminant Information

- a) Are any pH neutralization and/or dechlorination chemicals used in the discharge? If so, include the chemical name and manufacturer; maximum and average daily quantity used as well as the maximum and average daily expected concentrations (mg/l) in the discharge, and the vendor's reported aquatic toxicity (NOAEL and/or LC₅₀ in percent for aquatic organism(s)). NO See Attachment D
b) Please report any known remediation activities or water-quality issues in the vicinity of the discharge.

4. Determination of Endangered Species Act Eligibility: Provide documentation of ESA eligibility as required at Part 3.4 and Appendices III and IV. In addition, respond to the following questions.

- a) Are any listed threatened or endangered species, or designated critical habitat, in proximity to the discharge? Yes ☐ No ☒
b) Has any consultation with the federal services been completed? Yes ☐ No ☒
c) Is consultation underway? Yes ☐ No ☒
d) What were the results of the consultation with the U.S. Fish and Wildlife Service and/or NOAA Fisheries Service (check one): a "no jeopardy" opinion ☐ or written concurrence ☐ on a finding that the discharges are not likely to adversely affect any endangered species or critical habitat.
e) Which of the five eligibility criteria listed in Appendix 2, Section B (A,B,C,D, or E) have you met? A ☐
f) Please attach a copy of the most current federal listing of endangered and threatened species, found at USF&W website. See Attachment E

5. Documentation of National Historic Preservation Act requirements: Please respond to the following questions:

- a) Are any historic properties listed or eligible for listing on the National Register of Historic Places located on the facility site or in proximity to the discharge? Yes ☐ No ☒
b) Have any State or Tribal historic preservation officers been consulted in this determination? Yes ☐ or No ☒ If yes, attach the results of the consultation(s).
c) Which of the three National Historic Preservation Act requirements listed in Appendix 3, Section C (1,2 or 3) have you met? 1 ☐

6. Supplemental Information: Please provide any supplemental information. Attach any analytical data used to support the application. Attach any certification(s) required by the general permit

7. Signature Requirements: The Notice of Intent must be signed by the operator in accordance with the signatory requirements of 40 CFR Section 122.22 (see below) including the following certification:

I certify under penalty of law that (1) no biocides or other chemical additives except for those used for pH adjustment and/or dechlorination are used in the dewatering system; (2) the discharge consists solely of dewatering and authorized pH adjustment and/or

dechlorination chemicals; (3) the discharge does not come in contact with any raw materials, intermediate product, water product or finished product; (4) if the discharge of dewatering subsequently mixes with other permitted wastewater (i.e. stormwater) prior to discharging to the receiving water, any monitoring provided under this permit will be only for dewatering discharge; (5) where applicable, the facility has complied with the requirements of this permit specific to the Endangered Species Act and National Historic Preservation Act; and (6) this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted.

Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, I certify that the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I certify that I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Facility Name: Bridgewater State College, Conant Science Building Expansion

Operator signature: 

Title: Site Superintendent, Barr & Barr

Date: 12/21/09

Federal regulations require this application to be signed as follows:

1. For a corporation, by a principal executive officer of at least the level of vice president;
2. For partnership or sole proprietorship, by a general partner or the proprietor, respectively, or,
3. For a municipality, State, Federal or other public facility, by either a principal executive officer or ranking elected official.
