RE: NPDES Phase II Small MS4 General Permit
Town of Rockland, Massachusetts Annual Report
MADEP Transmittal No. W-036804
EPA Permit Number MA041058

Dear Madam/Sir:

The Town of Rockland, Massachusetts is pleased to provide you with the attached National Pollutant Discharge Elimination System (NPDES) Phase II Small MS4 General Permit Annual Report for the period from April 1, 2008 to March 31, 2009. During this period, the Town has continued the implementation of its Storm Water Master Plan, dated June 26, 2003. The Town has developed a stormwater management program and will continue to implement activities in accordance with regulatory requirements and as available funding will allow.

Should you have any questions, please do not hesitate to call me at (781) 878-1964.

Sincerely,

John F. Loughlin
Superintendent Sewer Department

Municipality/Organization: Town of Rockland, MA

EPA NPDES Permit Number: MA041058

Part II. Self-Assessment

In general, the Town of Rockland's stormwater management activities for the sixth year of the General Permit (March 2009) were in conformance with the Notice of Intent (Massachusetts DEP form BRP WM 08A) and scheduled for 2003. The Town has developed a Stormwater Management Plan with program priorities for 2003-2008 including:

1. Achieving regulatory compliance, particularly EPA and DEP Phase II NPDES permit requirements;
2. Incorporating storm water protection measures into municipal activities;
3. Focusing activities on target pollution reduction (e.g. Section 303.d. waters and protecting the Town's waters);
4. Ensuring that the Program is current and innovative; and
5. Providing Program administration.

The Water Quality Stewardship element of the program focuses on the protection of the local water supply and Section 303.d waters located within the Town. To this end, staff will continue to develop and improve the Program to reduce storm water pollution to the maximum extent practicable and eliminate prohibited non-storm water discharges, facilitating understanding and involvement in storm water management by various Town departments. Program focus on increased efforts to reduce target pollutants and restore local water bodies.

The Town is committed to working with local watershed associations to advance their goals and objectives. Another goal of the staff will be to keep abreast of the latest technology and approaches to achieve storm water management. Program staff strive to encourage environmental stewardship and continue to build on partnerships with other agencies, neighboring communities, and the community for active participation in accomplishing the Program mission.

The activities performed during Permit Year Five focused on the continued development of a Town-wide Geographic Information System, including drainage structure mapping. In addition, an outfall field screening and testing program was also conducted during this permit year, with the collected data compared with the applicable state and federal standards.

The Town also continued with control measures that were initiated during the previous permit year, including implementation of housekeeping programs; and communicating the Town's Plan to local watershed associations. A Phase I inspection was also completed in August 2006.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 6 (Reliance on non-municipal partners indicated, if any)	Planned Activities – Permit Year 7
1	Partnership with local Watershed Associations	Con. Comm., DPW, BOH	Regular Meeting Attendance	Continued updates with North and South River Watershed Association	Continued updating, seek alternative funding opportunities (such as 604b and 319 grants).
Revised					
2	Develop Brochures	DPW	Quarterly Mailings	Water department mailings and water quality updates.	Continued mailings.
Revised					
3	WEB Site Public Service Postings	IT Dept., DPW	WEB Site Publication & Maintenance	NSRWA information transfer and publication of data, local WEB updates	NSRWA information transfer and publication of data, local WEB updates
