Part II. Self-Assessment

The Town of Dartmouth Massachusetts has completed the required self-assessment and has determined that our municipality is in compliance with all permit conditions.

Part III. Summary of Minimum Control Measures

1. Public Education and Outreach

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 11 (Reliance on non-municipal partners indicated, if any)	Planned Activities – New Permit
1-1	Partnerships	DPW,BOH	Partnerships, Press releases, distribute	The Board of Health, Conservation Commission and Department of Public Works continue seek out, document and mitigate sources of illicit discharges.	.New permit to be issued in 2014
Revised	<i>Install tributary signage.</i>	Planning	.Maintain and replace as necessary tributary signs.	The Town has continued a multi-year partnership with the University of Massachusetts, the Dartmouth Lloyd Center, and the Coalition for Buzzards Bay to restore the health of Dartmouth’s coastal estuaries and rivers. UMass has completed the Slocums/Little River Report and the Final Report was submitted to DEP on May 20, 2013. As of this date we have not received the Apponagansett Bay final report that had been scheduled for submittal by July 2012. The Town’s Highway Division continues to maintain and replace missing tributary signs on a as needed basis.	
1-2	<i>Educational Materials</i>	DPW,BOH	Distribute Fact Sheets at municipal buildings, install Storm Drain Stencils in designated areas..	The Town initiated a Cigarette Litter Prevention Educational Program in July of 2011. Due to funding, the program signs were not installed in July 2012 or 2013. The DPW will continue to declare July as Cigarette Litter	

Revised				Prevention Month and will post appropriate signage thru-out the Town particularly at traffic lights where the cigarette liter is problematic. The Town continues to provide Storm Drain Information via fact sheets at various locations throughout the Town. The Town utilized Highway Division laborers to maintain cigarette dispensers and install public notices as part of the "cigarettes are liter" campaign. . Due to funding , the DPW was unable to utilize UMass Engineering interns for the installation of permanent storm water logos on catch basin inlets in 2013.. Damaged or missing logo's were replaced on an as needed basis by DPW laborers.	
1-3 Revised	Reaching Diverse Audiences	DPW, BOH		The "cigarette are liter" campaign reached significant audiences in 2011 by placement of the liter signs at all major traffic intersections in Dartmouth during the month of July. The Town will reuse the liter signs in 2014 to continue to reach a diverse audience. The Town continues to provide storm water general info/programs to the general public as well as the building/construction industry via notice with all construction contracts. The Town provided "Community Clean Up Day" in addition to "Hazardous Waste Day".

2. Public Involvement and Participation

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 11 (Reliance on non-municipal partners indicated, if any)	Planned Activities – New Permit
2-1 Revised	Storm Drain Stenciling	Planning, ConCom, DPW	Number of installed stormwater logos.	Town continued utilize DPW laborers to maintain and install new metal stormwater logos and tributary signage. Due to budget constraints the use of Umass college interns during the summer of 2013 was not possible.	New Permit to be issued in 2013
2-2 Revised	Existing Program Assistance	DPW, ConCom	Update of the NPDES Phase II Program to Town Boards	Staff continued ongoing review of applicable bylaws and regulations pertaining to storm water and continued to maintain tributary signs. The Town continued year 5 of a community clean up day consisting of multiple community groups, and support from Dunkin Donuts, and assistance from the DPW Highway Division. The 2014 Clean Up will be for the month of April, the Town will distribute free PAYT Bags to community groups and residents to assist in the clean up.

3. Illicit Discharge Detection and Elimination

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 11 (Reliance on non-municipal partners indicated, if any)	Planned Activities – New Permit
3-1	Mapping	DPW, ConCom	Coordination of data from Dartmouth BOH and DPW. Utilize Buzzards Bay National Estuary Program data and Stormwater Discharge Atlas	Continue to update mapping as required through the DPW Engineering Division and the Conservation Commission. The Town has entered into contract to update the GIS system. One of the first tasks will be to complete the Town composite drainage plan including all outlets to resource locations. The consultant is also being considered to develop the 2014 NPDES Permit NOI and will evaluate the current NPDES efforts versus the requirements of the new permit. In the current year, the Town will utilize the Atlas of Stormwater Discharges in Buzzards Bay Watershed as the base drainage plan for the community.	Testing of water quality will be a requirement under the new permit to be issued in 2014.
Revised					
3-2	Legal Prohibited – Enforcement	BOH, ConCom	Continued review and upgrading of existing stormwater related bylaws	The Board of Health continues to collect and review data identifying potential areas of illicit discharge. DPW crews perform sanitary	

<p>Revised</p>	<p>DPW personnel have been directed to perform inspections on all SMH's and DMH's when ever the cover is opened. Inspections include condition of MH and evaluation of function to identify illicit connections.</p>	<p>inspections of all drainage structures during routine maintenance. DPW, Board of Health and Conservation Commission regulations have been reviewed to strengthen if required areas that prohibit illicit connections to storm drain systems.</p> <p>In 2013, the DPW conducted extensive smoke testing and sanitary flow isolation. Also, house to house sanitary surveys were conducted in several districts.</p> <p>The Department of Public Works did not uncover any illegal connections to the storm drain system in Year 11.</p> <p>DPW maintained the two Vortec Units discharging to Padanaram Harbor and were impressed by the unit capture rates resulting in reduced TSS impacting the bay. Thiese units will reduce documented siltation of Apponagansett Bay.</p> <p>The Town anticipated the installation of storm water treatment facilities on Rogers Street in 2013. Unfortunately, the project was not funded by MassWorks. The water shed includes The City of New Bedford and the Town. The Town has reapplied for funding for this project through the Mass Works Infrastructure Program.</p>	<p>Water quality testing and monitoring.</p>
<p>3-3</p>	<p>Detection Plan</p>	<p>BOH,DPW</p>	<p>The Town had granted an extension to the contract with UMass for the Turn</p>

Revised				the Tide Program. The Town is awaiting the Final Report for Apponagansett Bay and will utilize the document to guide future detection plan direction. The town continues to work with our partners Umass and the Loyd Center for Environmental Studies and on the build-out analysis as part of the final phase of the Turn the Tides Project.	
3-4	Awareness & Education	BOH, Planning	Continue to update the placement of Fact Sheets in Public Facilities, prepare and fund (2) two Household Hazardous Waste Days during this reporting period.	Fact sheets and Stormwater informational brochures have been obtained and displayed, two (2) Community Clean Up's and two (2) Hazardous Waste Days have been advertised and held at the DPW Highway Yard.

4. Construction Site Stormwater Runoff Control

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 11 (Reliance on non-municipal partners indicated, if any)	Planned Activities – New Permit
4-1 Revised	Stormwater Management	ConCom	Providing Stormwater Management Guidelines & Requirements	The Town continues to enforce storm water BMP's for private sector projects. Town continues the review and update of local bylaws and regulations as necessary.. Conservation Commission continues to inventory structural storm water technologies within the Town . Continued the review of standards for Stormwater related to the construction of residential and commercial developments.	New Permit to be issued in 2014
4-2 Revised	Stormwater Regulations	Planning Board	Review of Subdivision Regulations relative to stormwater control during construction.	Enforcement of subdivision regulations that prevent the release of residential lots for sale until all stormwater facilities have been constructed and are fully operational.	
4-3 Revised	Education Materials	DPW	Provide Stormwater Information to all contractors that have been awarded construction contracts with the Department of Public Works.	All contractors performing site work or utility work on significant size projects are provided with a Memorandum and wall guide to Planning & Implementing Erosion & Sediment Control Practices.

5. Post-Construction Stormwater Management in New Development and Redevelopment

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 11 (Reliance on non-municipal partners indicated, if any)	Planned Activities – New Permit
5-1	Stormwater Management	ConCom	Enforcement of Town of Dartmouth's and Mass DEP's Stormwater Guidelines.	Ongoing review and monitoring of the current stormwater bylaws and regulations. The Town has a designated drainage consultant who is responsible for the review of all stormwater designs. The Town's Environmental Affairs Coordinator monitors all construction related activities.	New Permit to be issued in 2014
Revised					
5-2	Drainage Consultant	ConCom	Consistent Technical Review of Stormwater design and policy.	Consultant continues to provide technical input Conservation Commission pursuant to Stormwater Regulations and Bylaws. Consultant continues the review of all Notice of Intents involving the construction of drainage facilities and drainage calculations.	
Revised					
5-3	Subdivision Rules & Regulations	Planning	Enforcement of regulations pertaining to stormwater facilities being fully operational prior to release of lots.	Developers are aware that they must construct all drainage facilities, and provide fully operational system prior to the release of any lot for sale.

6. Pollution Prevention and Good Housekeeping in Municipal Operations

BMP ID #	BMP Description	Responsible Dept./Person Name	Measurable Goal(s)	Progress on Goal(s) – Permit Year 11 (Reliance on non-municipal partners indicated, if any)	Planned Activities – New Permit
6-1	Employee Training	DPW	Provide employee training in conjunction with 40 CFR 112 program.	DPW provides staff training on Storm Water Good Housekeeping. The DPW has training videos for good housekeeping in municipal facilities. SPCC training was performed in 2013 by the Director of Public Works to all field personnel on “Good Housekeeping Methods”. Examples of daily maintenance procedures and equipment inspections will be presented.	Director of Public Works to provide in house SPCC training in 2015.
6-2	O&M Program	DPW	Implementation of O&M program designed to reduce and or eliminate the discharge of pollutants from various DPW facilities.	DPW Highway Division has purchased salt brine production equipment. In 2013, the Town continued with a salt brine pretreatment program that will reduce the volume of salt used for snow and ice operations. In 2013, the Town was forced to mix sand with salt due to	DPW will continue to equip snow and ice equipment with brine treatment equipment.

Revised				<p>the lack of salt available to the community. The use of the sand /salt mixture took place on 3 winter storms. The new snow and ice procedures have dramatically reduced the volume of sand collected in catch basins and discharged to streams and the bay. Operators have ongoing training on the proper procedures for delivery of salt to roadway, in 2014, two staff employees will become certified in winter snow operations. The Town has purchased for a new vacuum sweeper. This new sweeper will supplement the existing two sweepers and will allow the Town to complete sweeping operations in a more timely manner. Staff monitors all exterior stored equipment for fluid leakage. Stormwater detention ponds at the Highway Division garage have been serviced and the remaining Highway Division Yard is swept clean of salt residues, the existing oil/gas separator has been fully serviced after the winter season in preparation for the new season</p>	
6-3	Roadway Maintenance	DPW	<p>Sweep all streets. Clean all catch basins annually.</p>	<p>The Town swept all primary roadways and a majority of secondary roadways. The addition of a third sweeper has improved street cleaning operations. The Town will service all Vortec Units with the Vac-All The Town has cleaned all catch basins in Town under private contract on an annual basis..</p>	<p>The Town will continue the complete sweeping of Town streets on an annual basis.</p>

7b. WLA Assessment

Part IV. Summary of Information Collected and Analyzed

- The Town is awaiting the Apponagansett Bay Nutrient Threshold Technical Report from UMass.. The final report on the Paskemansett River was scheduled to be issued on June 30, 2012, as of this date we have not received the Final Apponagansett Bay Report. Upon receipt of all reports, the Town will request a meeting with UMass, the Coalition for Buzzard's and the Loyd Center to discuss the report findings and recommendations. The Town granted an extension to the Contract in order to complete the project.
- The Town Board of Health and Department of Public Works continue to respond and inspect all potential sources of illicit discharge when applicable.
- The Town implemented a "Cigarette is Liter Prevention" campaign during July 2011. The program will continue in 2014. The program includes the installation of "cigarette liter is trash" posters that are placed at all major traffic intersections during the month of July. The Town also held the fifth annual Community Clean Up Day in 2013, for 2014, the month of April is declared clean up month with community groups working to collect litter.
- The Town continued to maintain the Vortec 9000 storm water unit installed to service a large watershed to the Padanaram Harbor. The Town has designed and applied for funding for the installation of a storm treat system to service a significant watershed to Clarks Cove, unfortunately funding from the MassWorks program was unsuccessful again in 2013. The unit would have provided treatment to New Bedford and Dartmouth storm water on Rogers Street.
- The Coalition for Buzzards Bay, and the University of Massachusetts on the Turn the Tide Project is a commitment by the Town to protect Buzzards Bay and the contributing river bodies by restoring the health and vitality of Dartmouth's waters. The Apponagansett Bay Final Reports was to be submitted by July 2012, to date we have not received the final report.
- The DPW Highway Division has continued to maintain and replace damaged or missing storm water logo and tributary signs.
- The program continues to support the local estuary projects including the overall progress being made by the UMass Dartmouth School of Marine Science and Technology of the various brooks and ponds in the Town of Dartmouth.
- The DPW purchased a new vacuum street sweeper and additional salt brine equipment to reduce the impact snow & ice operations have on the environment, both items are operational, DPW will continue to install individual salt brine tanks on the remaining "sanders".

- Conservation Commission continues to provide guidance and direction in prioritizing the placement of structural storm water units in Town.

Part V. Program Outputs & Accomplishments (OPTIONAL)

Programmatic

Stormwater management position created/staffed	(y/n)	
Annual program budget/expenditures	(\$)	

Education, Involvement, and Training

Estimated number of residents reached by education program(s)	(# or %)	
Stormwater management committee established	(y/n)	
Stream teams established or supported	(# or y/n)	
Shoreline clean-up participation or quantity of shoreline miles cleaned	(y/n or mi.)	
Household Hazardous Waste Collection Days		

<ul style="list-style-type: none"> ▪ days sponsored ▪ community participation ▪ material collected 	(#)	
	(%)	
	(tons or gal)	
	(y/n)	
School curricula implemented
