CONSENT DECREE

This Consent Decree ("Decree") is made and entered into by and among the 2 3 United States of America ("the United States"), on behalf of the National Oceanic and 4 Atmospheric Administration ("NOAA"), the Department of the Interior ("DOI") and the 5 United States Environmental Protection Agency ("EPA"); and the State Lands Commission, the Department of Fish and Game, the Department of Parks and 6 7 Recreation, the Department of Toxic Substances Control ("DTSC"), the California Regional Water Quality Control Board, Los Angeles Region ("Regional Board"), the 8 9 California Hazardous Substance Account as defined in California Health and Safety Code section 25330, the California Hazardous Substance Cleanup Fund as defined in 10 11 California Health and Safety Code section 25385.3 and the California Toxic Substances 12 Control Account as defined in California Health and Safety Code section 25173.6 (hereinafter collectively referred to as the "State"); and Defendants, Counter-claimants, 13 14 Cross-claimants and Third-party Plaintiffs Montrose Chemical Corporation of California ("Montrose"), Aventis CropScience USA Inc. (formerly known as Rhone-Poulenc Inc.) 15 16 ("Aventis"), Chris-Craft Industries, Inc., ("Chris-Craft") and Atkemix Thirty Seven, Inc. 17 ("Atkemix-37") (collectively, the "DDT Defendants"). This Decree is not intended to affect in any way the United States' and the State's claims against any entity other than 18 19 the Released Parties (as defined below).

1

INTRODUCTION

The United States, on behalf of NOAA and DOI in their capacities as 21 A. 22 natural resource trustees (hereafter the "Federal Trustees"), and on behalf of EPA, and 23 the State, on behalf of the State Lands Commission, the Department of Fish and Game 24 and the Department of Parks and Recreation in their capacities as natural resource 25 trustees (hereafter the "State Trustees") (the Federal Trustees and State Trustees collectively are referred to as "the Trustees"), filed the original complaint in this action 26 27 on June 18, 1990, under Section 107 of the Comprehensive Environmental Response, 28 Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. § 9607,

-1-

seeking, inter alia, recovery of damages, including damage assessment costs and related 1 2 response costs, for injury to, destruction of, and loss of natural resources resulting from 3 releases of hazardous substances, specifically including dichlorodiphenyltrichloroethane 4 and its metabolites (hereafter collectively "DDT"), and polychlorinated biphenyls 5 (hereafter "PCBs"), from facilities in and around Los Angeles, California, into the environment, and for response costs incurred and for declaratory judgment for response 6 7 costs to be incurred by EPA in connection with releases of hazardous substances into the 8 environment at and from the Montrose Chemical Corporation Plant Property located at 9 20201 South Normandie Avenue, Los Angeles, California. The original complaint was amended on June 28, 1990, again on August 16, 1991, and again on December 8, 1999 10 11 ("Third Amended Complaint").

12 B. In the First Claim for Relief of the complaints, the United States and the State assert a claim against ten defendants, including the four DDT Defendants, under 13 14 Section 107(a)(1-4)(C) of CERCLA, 42 U.S.C. § 9607(a)(1-4)(C), for alleged natural 15 resource damages, including damage assessment costs and related response costs. The 16 complaints allege that the DDT Defendants are and/or were owners and/or operators of 17 the Montrose DDT manufacturing and formulation plant at 20201 Normandie Avenue, 18 Los Angeles, California. The complaints further allege, among other things, that the 19 Montrose Plant discharged wastewater containing hazardous substances, including DDT, 20 into the County Sanitation District No. 2 of Los Angeles County ("LACSD") and the 21 collection system that conveys wastewater to the Joint Water Pollution Control Plant 22 ("JWPCP") through the White's Point Outfall into the San Pedro Channel, that Montrose 23 engaged in direct ocean dumping of DDT-containing wastes, and that DDT discharged 24 into the air from the Montrose Plant Property (as defined herein) was deposited at Los 25 Angeles and Long Beach Harbors and the San Pedro Channel, and that such discharges caused injury to natural resources. 26

C. In the Second Claim for Relief of the complaints, the United States and
DTSC assert a claim for recovery of costs incurred and declaratory judgment for costs to

be incurred by EPA and DTSC in response to the release or threatened release of 1 2 hazardous substances into the environment at and/or from the Montrose Plant Property 3 (as defined herein) pursuant to Section 107(a)(1-4)(A) of CERCLA, 42 U.S.C. § 4 9607(a)(1-4)(A). The Third Amended Complaint specified that the second claim 5 included costs incurred and declaratory judgment for costs to be incurred by EPA and DTSC in connection with, among other things, the White's Point Outfall leading to the 6 7 San Pedro Channel, the Palos Verdes shelf, the Consolidated Slip, and the ocean dump 8 sites used for disposal of Montrose waste.

D. In 1990 and 1991, the DDT Defendants answered the original complaint,
counterclaimed against the Plaintiffs, cross-claimed against co-defendant LACSD and
filed third party complaints against the City of Los Angeles and approximately 150 other
local governmental entities who have since settled with the United States and the State
(collectively, the "Settling Local Governmental Entities" or "SLGEs"). The District
Court's approval of such settlements is the subject of a pending appeal by the DDT
Defendants.

E. On April 24, 2000, the Court entered an order granting Plaintiffs' Motion
for Partial Summary Judgment holding Montrose, Atkemix-37, and Aventis liable under
CERCLA Section 107 for past and future response costs not inconsistent with the
National Contingency Plan related to portions of the Onshore Areas (as defined herein).

F. On September 20, 2000, the Court entered an order granting Plaintiffs'
Motion for Partial Summary Judgment holding Montrose and Aventis liable under
CERCLA Section 107 for past and future response costs not inconsistent with the
National Contingency Plan related to the Palos Verdes shelf.

G. Pursuant to a Partial Consent Decree that was entered by the Court on
October 20, 2000, the DDT Defendants have already paid \$5.125 million as
reimbursement and settlement of claims for past response costs incurred by the United
States and DTSC as defined therein. In addition, Montrose previously paid

\$1,354,612.37 as reimbursement of past response costs incurred by the United States
 with respect to portions of the Onshore Areas.

H. Plaintiffs have previously settled with all other parties, including the
SLGEs, CBS Corporation, and Potlatch/Simpson, for natural resource damages and
response costs.

I. Trial in this action between Plaintiffs and the DDT Defendants commenced
on October 17, 2000.

8 J. Subject to the reservations and re-openers in this Decree, this Decree 9 finally and fully resolves all present and future liability of the Released Parties to the United States on behalf of the Federal Trustees, and the State on behalf of the State 10 11 Trustees, for Natural Resource Damages (as defined herein). Subject to the reservations 12 and re-openers in this Decree, this Decree finally and fully resolves all present and future liability of the Released Parties to the United States (including EPA) and DTSC and the 13 14 Regional Board for Response Costs and for DOJ Costs (as those terms are defined herein). The Released Parties also receive contribution protection for all matters 15 addressed herein. 16

K. This Consent Decree does not resolve the Released Parties' liability to EPA
or DTSC for any matter related to the Onshore Areas (except DOJ Costs). EPA has not
selected final remedies for portions of the Onshore Areas, including: the neighborhoods,
the DNAPL, the storm water pathway, and on-property and near-property soils.

L. On August 21, 1997, EPA provided notice of its rulemaking proposing to
amend the Montrose Chemical NPL listing to include the effluent-affected DDT and
PCB contaminated sediments on the Palos Verdes shelf. See 62 Fed. Reg. 44430,
August 21, 1997. The DDT Defendants submitted written comments to that proposed
rulemaking, through their counsel, on October 16, 1997. The United States believes that
the DDT and PCB contaminated sediments are already included as part of the Montrose
Chemical NPL Site but has agreed to take no action relying on that position until the

above-noted rulemaking is concluded. No action taken by the United States in that rulemaking shall affect the covenants not to sue contained in this Decree.

M. EPA is conducting the Palos Verdes shelf investigation under the authority of CERCLA to determine the nature and extent of contamination of the Palos Verdes shelf, to assess effects of the contamination on the environment and human health, and to determine whether to select response actions, if any, to address the contamination.
Subject to the reservations and re-openers in this Decree, this Decree resolves the Released Parties' potential liability for any costs associated with such response actions.

N. EPA has investigated a broad range of response alternatives for the Palos
Verdes shelf. EPA ultimately decided to focus its investigations on the no action,
institutional controls and in-place capping alternatives. In March 2000, EPA proposed
an institutional controls program for public comment. EPA is also continuing to evaluate
capping as a potential response action for the Palos Verdes shelf. Subject to the
reservations and re-openers in this Decree, this Decree resolves the Released Parties'
potential liability for any costs associated with such response actions.

16 0. The Trustees will use all damages to (1) reimburse past and future Damage Assessment Costs, and (2) restore, replace, or acquire the equivalent of the injured 17 natural resources and/or the services provided by such resources. The Trustees will use 18 19 the damages for restoration of injured natural resources, including bald eagles, peregrine 20 falcons and other marine birds, fish and the habitats upon which they depend, as well as providing for implementation of restoration projects intended to compensate the public 21 for lost use of natural resources. The Trustees will undertake a restoration planning 22 23 process to determine which restoration projects will most effectively restore the injured 24 resources as well as compensate for lost use of those resources. The details for specific 25 projects will be contained in a draft restoration plan. A final restoration plan will be prepared and implemented by the Trustees after providing public notice, opportunity for 26 27 public input and consideration of public comments.

P. The United States and the State also have agreed on an allocation of the 1 2 settlement amount between EPA/DTSC Response Costs and the Trustees' damage 3 assessment costs and Natural Resource Damages. The United States and the State have 4 agreed that the DDT Defendants shall pay a total of \$30 million to the Trustees to resolve 5 any potential liability of Released Parties for Natural Resource Damages and shall pay a total of \$43 million to EPA and DTSC to resolve any potential liability of the Released 6 7 Parties for Response Costs. None of the settlement amount nor any of the interest earned 8 thereon shall be used for or credited to the Onshore Areas. As specified in Paragraph 9 11.C, the United States and the State have agreed that, under certain conditions, \$10 million of this \$43 million may be used either (1) by DTSC for response actions or (2) by 10 11 the Trustees for natural resource restoration.

Q. This settlement is made in good faith after arm's-length negotiations conducted under the supervision of Special Master John Francis Carroll. The United States, State of California, and DDT Defendants agree, and this Court by entering this Consent Decree finds, that this Consent Decree has been negotiated by the Parties in good faith, that settlement of this matter and entry of this Decree will avoid further complicated litigation between the Parties, is the most appropriate means to resolve the matters covered herein, and is fair, reasonable and in the public interest.

19 NOW, THEREFORE, with the consent of the Parties to this Decree, it is hereby
20 ORDERED, ADJUDGED AND DECREED:

21

JURISDICTION AND VENUE

This Court has personal jurisdiction over the Parties. This Court has
 personal jurisdiction over the non-DDT-Defendant Released Parties, which submit to this
 Court's jurisdiction for purposes related to implementation of this Consent Decree. This
 Court has jurisdiction over the subject matter of this action and the Parties to this Decree
 pursuant to 28 U.S.C. §§ 1331, 1345, 1651 and 1367, and Sections 106, 107 and 113(b)
 of CERCLA, 42 U.S.C. §§ 9606, 9607 and 9613(b), and the principles of supplemental
 jurisdiction. The Parties and the Released Parties waive all objections and defenses that

-6-

they may have to jurisdiction of the Court or to venue in this District and to service of
 process. The Released Parties consent to and shall not challenge entry of this Consent
 Decree or this Court's jurisdiction to enter and enforce this Consent Decree.

4

APPLICABILITY OF DECREE

2. The provisions of this Decree, including the covenants not to sue and
contribution protection, shall be binding on, apply to, and inure to the benefit of the
United States, the State, the DDT Defendants and their successors and assigns, and for
the purposes of Paragraphs 8 through 10, 12 through 15, and 27, the Released Parties,
their successors and assigns. No change in the ownership or organizational form or
status of the Released Parties shall affect their rights or obligations under this Decree.

11

EFFECT OF SETTLEMENT/ENTRY OF JUDGMENT

12 3. This Decree was negotiated and executed by the Parties hereto in good faith at arm's length to avoid the continuation of expensive and protracted litigation and 13 14 is a fair and equitable settlement of claims which were vigorously contested. The DDT 15 Defendants do not admit any of Plaintiffs' allegations or claims set forth herein and deny 16 any liability whatsoever for Plaintiffs' claims against the DDT Defendants set forth in the 17 complaints. The Released Parties do not admit that any area other than the Montrose Plant Property has been impacted by hazardous substance releases from the Montrose 18 19 Plant Property. This Decree should not constitute or be interpreted, construed or used as 20 evidence of any admission of liability, law or fact. Except as otherwise provided in the Federal Rules of Evidence, this Consent Decree is not admissible in evidence against any 21 22 Party by any person or entity not a Party to the Decree in any judicial or administrative 23 proceeding.

4. Upon approval and entry of this Decree by the Court, this Decree shall
constitute a final judgment between and among the United States and the State, and the
DDT Defendants regarding the matters addressed and resolved by this Decree.

RESERVATION OF RIGHTS FOR NATURAL RESOURCE DAMAGES

8 9. A. Notwithstanding any other provision of this Decree, the Trustees 9 reserve the right to institute proceedings against the Released Parties in this action or in a new action seeking recovery of Natural Resource Damages, based on (1) injury to, 10 11 destruction of, or loss of natural resources resulting from conditions which were 12 unknown to the Trustees on the Date of Lodging of this Decree ("Unknown Conditions"); or (2) information received by the Trustees after the Date of Lodging of 13 14 this Decree which indicates there is injury to, destruction of, or loss of natural resources, of a type unknown to the Trustees as of the Date of Lodging of this Decree ("New 15 Information") 16

17 B. Each of the following shall not be considered to be Unknown Conditions or New Information within the meaning of Paragraph 9.A (1) or (2): (1) an increase 18 19 solely in the Trustees' assessment of the magnitude of the injury, destruction or loss to 20 natural resources, or in the estimated or actual Natural Resource Damages; (2) a determination by the Trustees that a previously identified natural resource injury was 21 22 caused by any DDT Defendant's release of a hazardous substance, including hazardous 23 substances other than PCBs or DDT; or (3) any Natural Resource Damages arising from 24 any re-exposure or resuspension on the Offshore Areas of the DDT- or PCB-25 contaminated sediments currently located there, including but not limited to, such reexposure or resuspension of sediments resulting from: 26

B. 13 In addition to the remedy provided for in the preceding subparagraph, if the 14 payments required of the DDT Defendants by Paragraphs 6, 7, and 11 of this Decree are not made by the dates specified in those Paragraphs, the DDT Defendants shall be liable, 15 16 in addition to the payments specified in those Paragraphs, for interest on those amounts 17 at the same rate paid by the Escrow established pursuant to Paragraph 6.

23

24

25

At the 6 7 conclusion of this document retention period, the DDT Defendants shall notify the 8 United States and the State at least ninety (90) days prior to the destruction of any such 9 records or documents, and upon request by the United States and the State, the DDT 10 Defendants shall produce or make available for their inspection any non-privileged 11 records or documents at a mutually convenient time and place agreed upon by the Parties.

B. In addition to the opportunity to obtain documents at the conclusion of the retention period set forth in Paragraph 20.A, the United States and the State may request, at any time during such retention period, that the DDT Defendants make available for their inspection, or at the DDT Defendants' option produce, any documents retained pursuant to Paragraphs 20.A. DDT Defendants shall produce or make available for inspection non-privileged documents at a mutually convenient time and place after the request is made.

DDT Defendants shall 5 retain the documents that are withheld as privileged, until any privilege disputes relating to those documents are resolved. If Plaintiffs do not request any particular privileged 6 7 documents, the DDT Defendants need not produce a privilege log for such non-requested 8 documents. E. 9 This Paragraph in no way effects or limits any obligation of the DDT Defendants to retain records under any other administrative or judicial order or 10 11 agreement, whether such order or agreement is currently extant or created in the future. 12 Further, this Paragraph in no way effects or limits any obligation of the DDT Defendants to retain records under any other judicial, statutory, or common law doctrine that would 13 14 otherwise require retention of records. 15 **VOIDABILITY** 21. 16 In the event that a final judicial determination is made by the District Court or, upon appellate review, by a higher court, that the entry of this Decree in its entirety 17 shall not be approved, this Decree and the settlement embodied herein is voidable at the 18 19 discretion of any party and the terms hereof may not be used as evidence in any litigation 20 or other proceeding. **COMPLIANCE WITH OTHER LAWS** 21 22. 22 This Decree shall not be construed in any way to affect any past, current or 23 future obligation of the DDT Defendants or any other person or entity to comply with 24 any federal, state or local law. 25 **RETENTION OF JURISDICTION** 23. 23	to any costs, damages, actions or other claims against the Released Parties for matters
24	addressed in this Decree, the Released Parties are entitled to, as of the Date of Entry of
25	this Decree, such protection as is provided in Section 113(f) of CERCLA, 42 U.S.C. §
26	9613(f), and all other provisions of federal or state statutes or of common law which limit
27	or extinguish their liability to persons not party to this Decree. The "matters addressed"
28	in this Decree are all claims against the Released Parties including claims for costs,

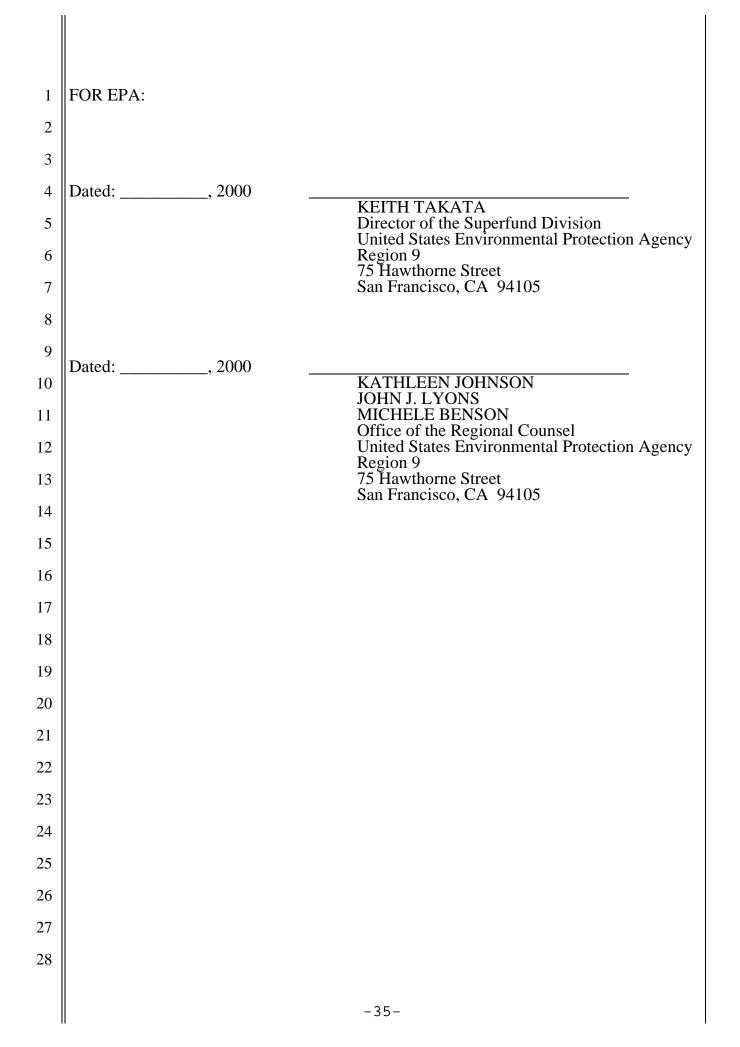

1	damages, contribution and other claims for: (1) Natural Resource Damages, (2) Response
2	Costs, and (3) DOJ Costs. No contribution protection is provided pursuant to this Decree
3	for any claim for response costs under CERCLA incurred in connection with the

6	or otherwise recover costs or damages from persons not party to this Decree are
7	preserved, except as provided in Paragraph 15.F.
8	28. The Trustees have determined that the payment to be made pursuant to
9	Paragraphs 6 and 7 of this Decree is an appropriate action necessary to protect and restore
10	the natural resources damaged by the release of DDT, PCBs and other hazardous
11	substances alleged in the First Claim for Relief of the complaints and that the payment
12	satisfies the requirements of Section 122(j)(2) of CERCLA, 42 U.S.C. § 9622(j)(2).
